

# The Black-White Wealth Gap

Jon Haveman, Ph.D.  
National Economic Education Delegation  
OLLI – Aquinas College  
June 21, 2022

## Available NEED Topics Include:

- Coronavirus Economics
- US Economy
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages
- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- US Social Policy

## Submitting Questions

- **Please submit questions in the chat.**
  - I will try to handle them as they come up, but may take them in a bunch as time permits.
- **We will do a verbal Q&A once the material has been presented.**
  - And the questions in the chat have been addressed.
- **OLLI allowing, we can stay beyond the end of class to have further discussion.**

3

## Credits and Disclaimer

- **This slide deck was authored by:**
  - Darrick Hamilton, Ph.D., The New School
  - Jon Haveman, Ph.D., NEED
- **This slide deck was reviewed by:**
  - Patrick Mason, Florida State University
  - Steven Craig, University of Houston
- **Disclaimer**
  - NEED presentations are designed to be nonpartisan.
  - It is, however, inevitable that the presenter will be asked for and will provide their own views.
  - Such views are those of the presenter and not necessarily those of the National Economic Education Delegation (NEED).

4

# Outline

- Evidence of disparities
- Why wealth is important
- Sources of disparities
- Implications of disparities
- Policy solutions

5

# Evidence

6

7

## Wealth Disparities, 2019

Race/Ethnicity	Mean Wealth	Share of Families	Share of Wealth	Ratio of Shares
White, non-Hispanic	\$983,400	64.9	85.3	1.3
<b>Black, non-Hispanic</b>	<b>\$142,500</b>	<b>14.2</b>	<b>2.7</b>	<b>0.2</b>
Hispanic or Latino	\$165,500	9.6	2.1	0.2
Other or Multiple Race	\$657,200	11.3	9.9	0.9

# Wealth is More and More Concentrated

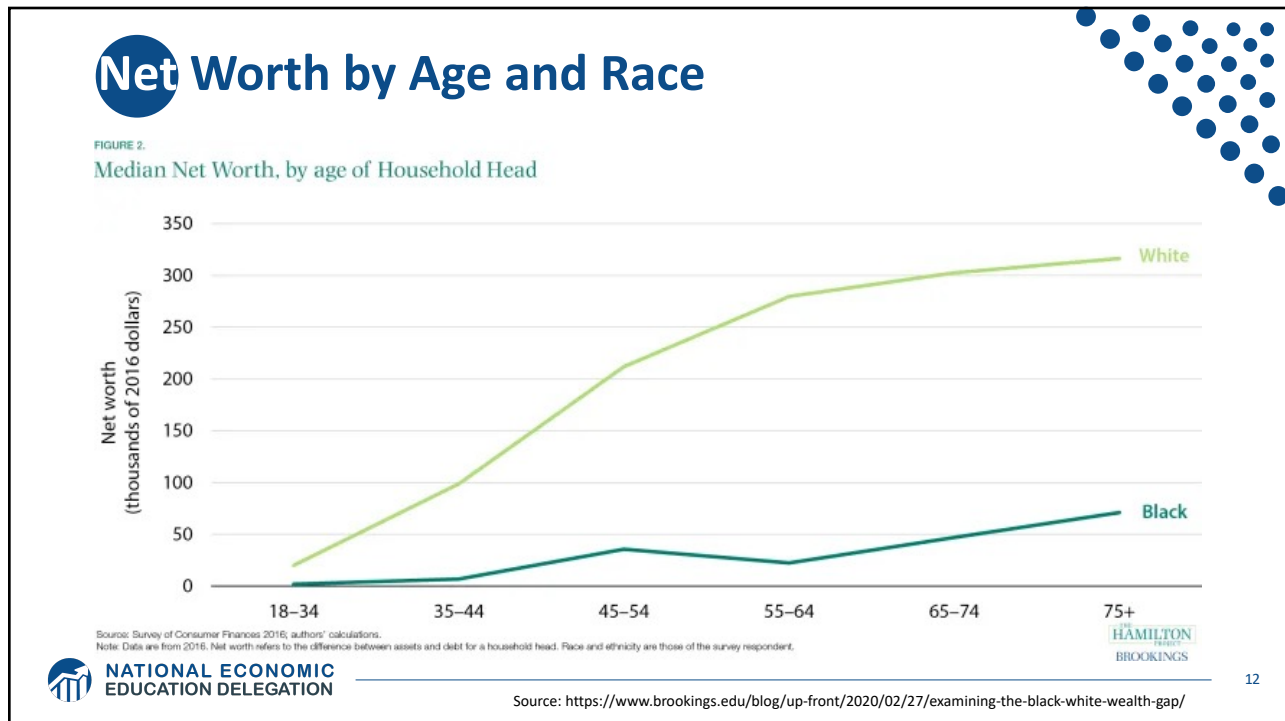

# Wealth Gap Over Time: Mean

11

12

## Black Household Incomes Relative to White

13

## By Household Income

14

## Evidence of Disparities: Zero Wealth

15

## Why Wealth is Important

16

## Widespread Household Wealth Pays Dividends

- **To individuals in the household**
  - Choices/Agency
  - Wealth is iterative
- **And to broader society**
  - Human capital development
  - Entrepreneurship and innovation

17

## Household Level Benefits

- **Choices/Life Agency**
  - Finance higher education
  - Living in good neighborhoods
  - Saving for retirement
  - Capital to start a business
  - Withstand financial hardship
  - Better legal counsel
  - Exert political influence
  - Finance costly medical procedure
  - Bequests
- **Wealth is iterative**
  - Wealth begets more wealth.
    - Access to higher return investments.
  - Wealth transfers across generations.
    - Wealth is sticky.

18

# Parental Wealth is Important

- **Important pre-estate transfer effects on kids:**
  - Influences human capital accumulation.
  - Influences the returns to education.
  - Adult incomes of offspring.
- **There are clearly enormous differences in wealth held by parents of Black and White children.**
- **And it's clear that nurture plays a big roll.**

# Wealth Mobility

## Tangible Benefits for the Broader Economy

- More human capital development
- Increased entrepreneurship
- Healthier labor force
- Less social unrest
- Less reliance on social programs
- Smaller stock of student loans

21

## Sources of Disparities

22

## Events/Policies with Direct Wealth Implications

- **Slave trade**
  - The first deprivation.
- **Slavery**
- **40 acres (and a mule)**
  - The second deprivation.
  - Discriminatory distribution of land.
- **Freedmen's Bank**
  - Lax oversight and dissolution.
- **Jim Crow Laws & Economic Policy**
  - Convict leasing, debt peonage, chain-gang, sharecropping, and lynching.
- **Homestead Act**
  - Discriminatory distribution of land.
- **Land theft and destruction**
  - E.g., Black Wall Street – Tulsa, 1921.
- **GI Bill**
  - Discriminatory access – Levittown
- **Federal Housing Authority**
  - Redlining
- **And many more.**

23

## Results for Black Families

- **Much lower accumulation of wealth than among White families.**
- **Implications:**
  - Less financial contribution from parents to children.
    - More difficult access to higher education.
    - Less access to capital for business formation.
  - More likely to live in disadvantaged neighborhoods.
    - Fewer role models.
    - Less access to quality education.
  - ***Disparities in the capacity – availability of resources - to build wealth.***

24

## Potential Explanations: Differences in...

- Educational attainment
- Home ownership
- Increased savings
- Financial literacy
- Entrepreneurship
- Soft skills and personal responsibility
- Wages
- Incarceration
- Family structure
- Initial endowment

25

## Wealth by Educational Attainment

26

## Educational Attainment

Median Household Net Worth by Race and Education

NATIONAL ECONOMIC  
EDUCATION DELEGATION

Source: Darity, et al., "What We Get Wrong About Closing the Racial Wealth Gap"

27

27

## Educational Attainment: Policy

### • How do we increase educational attainment?

- Increase universal quality of public schools.
- Increased/improved counseling in high schools.
- Reduce costs (including living) of attending college.
- Increased access to funds for education.
- Make publicly available pre-k education.
- Mandate kindergarten by age 5.
- No one able to drop out before age 18 or at least 11 completed years of education.

NATIONAL ECONOMIC  
EDUCATION DELEGATION

28

28

# Home Ownership

29

# Home Ownership: 2016

Housing Status	Net Worth Median	Net Worth Mean
Renters	\$5,200	\$91,100
Owner	\$231,400	\$1,034,200

## Median Net Worth by Race

30

## Wealth Equality Through Home Ownership?

- **Well-documented evidence of historical and ongoing housing and lending discrimination.**
  - Appraisals, buyers, lenders, local laws, covenants...
- **What about home prices in minority neighborhoods? Even if they buy, they won't get the appreciation of White neighborhoods.**
  - Home values are 50% lower in majority Black neighborhoods.
    - o 23% after adjusting for quality and amenities.

NATIONAL ECONOMIC  
EDUCATION DELEGATION

31

Source: Brookings, Home ownership while black

31

## What Determines Differences in Home Ownership?

- **Wealth of parents**
- **Ability to borrow – lending discrimination**
  - At all
  - On equivalent terms to white borrowers
- **Local ordinances – housing discrimination**
- **Lower appreciation rates of homes in majority Black communities.**
  - This makes it a less attractive investment.

NATIONAL ECONOMIC  
EDUCATION DELEGATION

32

32

## Increased Savings

- **Historical evidence generated by economists ranging from Milton Friedman (1957) to Marjorie Galenson (1972) to Marcus Alexis (1971) to Gittelman and Wolff (2004).....**
  - All find that after accounting for household income, Blacks have a slightly higher savings rate than Whites.
- **Assertion: risk and reward are higher for White investors**
  - Controlling for income, this is not clear.
  - Access to and tolerance for higher risk investments is clearly correlated with income.

33

## Financial Literacy

- **Financial literacy doesn't matter that much when you don't have any finances to manage.**
  - The insufficient financial literacy argument is often leveled specifically at Black households.
    - The argument holds equally with regard to all households of comparable incomes.
- **Controlling for household income, there is no difference in rates of asset appreciation between Black and White households.**

34

## Use of Payday Lenders

35

## Entrepreneurship: Rate of New Entrepreneurs

36

## Explaining Differences in Entrepreneurship

- **Disparities in access to capital:**

- Wealth disparities
  - o Specifically - differences in home equity.
  - o Differences in wealth levels of friends and family.
- Less likely to rely on banks and more likely to rely on credit cards.
- Loans have higher interest rates if they can get them.
- Less access to venture funds.

- **Generally lower levels of education.**

- **Previous business ownership by family members.**

- **Different stocks of relevant social capital.**

37

## Soft Skills and Personal Responsibility

- **Employability**

- Show up on time.
- Eye contact with customers.
- Dress well.
- Collaborative skills.

- **Reality**

- Black workers are crowded into service sector jobs.
- Well represented in service, sales and office, and production, transportation, and material moving.
- Relatively less well represented in construction, extraction, and maintenance.

## Kids – Household Types

47

## Initial Endowment

48

# What is Fundamentally Responsible?

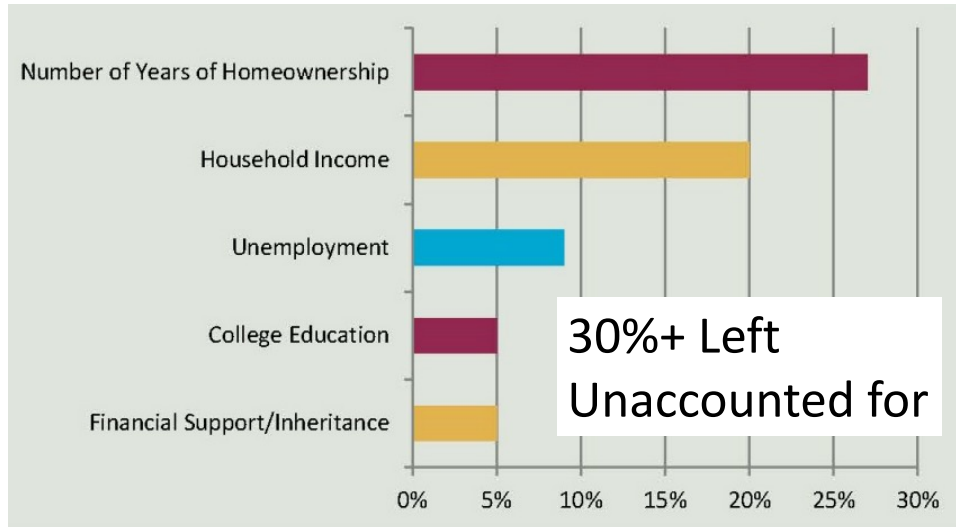

- Individual behaviors?
- Structural characteristics of the economy?
- History – policy and otherwise?

49

50

## Accounting for the Wealth Gap

51

## Policy Options

52

## Categories of Policy Areas

- **Housing**
  - FHA and redlining
- **Health Care**
- **Incarceration**
  - Black incarceration rates are very high.
- **Transportation**
  - Interstate system
- **Broadband**
  - Access is inversely related to regional income.
- **Education**
- **Workforce**
- **Income support and stability**
- **Asset accumulation**

53

## Specific Policy Options

- **Global solutions that affect all source areas**
  - Child Trust Accounts - "Baby Bonds"
  - Guaranteed minimum income
- **Addressing racial disparities directly**
  - Reparations
    - o Aggressive affirmative action.
    - o A new Homestead Act.
    - o Heavily investing in Black communities.
    - o Differential tax treatment.
  - Labor and other laws that address discrimination
    - o Enforce more aggressively and make adjustments where necessary to increase efficacy.
  - Fundamental reorientation of asset building agenda.

54

## Gov't Asset Building Policies

Size and Distribution of Select Asset-Building Tax Subsidies, 2017

Source: Updated estimates from Steuerle et al. (2014).

Note: "Income" refers to the Tax Policy Center's "expanded cash income" measure, which is described in Rosenberg (2013).

URBAN INSTITUTE

NATIONAL ECONOMIC  
EDUCATION DELEGATION

55

55

## Other Concrete Policy Options

- Limit the mortgage interest tax deduction and use the revenues to provide a credit for first-time homebuyers.
- Establish automatic savings and retirement plans.
- Reduce reliance on student loans while supporting success in postsecondary education.
- Offer universal children's savings accounts.
- Reform safety net program asset tests, which can act as barriers to saving among low-income families.
- Provide subsidies to promote emergency savings, such as those linked to tax time.

56

56

## Buying and Banking Black – Less Concrete

- **Common Assertion: Marshalling the enormous purchasing power of the Black community will drive progress.**
  - More than \$1.3 trillion in buying power.\*
- **Common Assertion: Banking is a source of wealth creation.**
  - Combining the wealth of Black Americans in Black banks could be a source of wealth creation.

57

## Intro to Fractional Reserve Banking

- **Money is deposited in an account in a bank.**
- **Most of that money is lent out.**
  - The rest is the “reserve”.
- **Suppose lent to purchase a house.**
  - That money is then deposited in a bank.
    - Most of that money is lent out.
      - The rest is the “reserve”.
    - Suppose lent to purchase a house.
      - That money is then deposited....
- **This is how wealth is created in the banking system.**
  - Many banks are charging interest on essentially the same deposit.

58

## Why This Doesn't Work for Black Banks

- Money is deposited in an account in a Black bank.
- Most is lent for the purchase of a house by a Black buyer.
- If the seller is White, those funds then get deposited in a White bank.
  - All of the remaining fractional reserve benefits now go to White banks.
- Because the money is not allowed to circulate ONLY within the Black community, Black banking will likely have limited capacity to generate wealth.
  - Capacity of banks. Capacity of depositors (3% of all U.S. wealth).

59

## Why the Short Circuiting of Black Banking?

Category	White	Black
Home Ownership (%)	73.7	45.0
Other Residential Property Ownership (%)	15.1	8.2
<b>Residential Ownership (%)</b>	<b>75.8</b>	<b>12.5</b>
Mean Asset Value (Thousands \$)		
- Own Home	354.8	199.3
- Other Residential	430.6	173.6
<b>Share of Res. Value (%)</b>	<b>80.0</b>	<b>5.7</b>

### • Numbers of banks & credit unions

- Total: 10,655
- Black owned: 43 (0.4%)

### • They are very small

- All Black owned: \$5.8 Billion
- JP Morgan Chase: \$2.8 TRILLION

60

## The Multiplier Economy – Spanner in the Works

- **Banking – money goes where money is.**
- **Buying – money goes to buy intermediate inputs, into the White community.**
  - There is a similar multiplier for consumer spending.
  - Money is spent – goes to a Black business
    - That Black business then keeps some of the money, but some leaves the Black community through the purchases of intermediate inputs.
      - The Black economy may simply not be big enough to prevent this leakage.

61

## Can It Be Made To Work?

- **Both approaches to closing the wealth gap are severely limited unless the Black banking sector and economies are walled off from the rest of the country.**
- **Walling off isn't enough. Also need to:**
  - Capitalize the Black banking sector and economy.
  - Offer fair protections from predatory market forces.
    - Larger White banks start off with more economic power.

62

## Summary

- **The Black White wealth gap is enormous (2019)**
  - Mean: White wealth is 6.9x Black wealth
  - Median: White wealth is 7.8x Black wealth
- **There are many explanations in the common narrative.**
  - Many do not stand up to scrutiny.
- **Government policies have contributed enormously this gap.**
  - Racial dehumanizing permitted these policies.
- **Wealth endowments (parental wealth) are enormously important for determining own wealth in adulthood.**
  - Policies that address this relationship are most likely to be effective.
- **Some form of policy intervention is likely necessary if the gap is to be closed.**

63
