

Osher Lifelong Learning Institute, Winter 2022 Contemporary Economic Policy

American University March-May, 2022

Host: Jon Haveman, Ph.D. National Economic Education Delegation

1

Available NEED Topics Include:

- Coronavirus Economics
- US Economy
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages

- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- US Social Policy

2

2

Course Outline

Contemporary Economic Policy

- Week 1 (3/11): US Economy & Coronavirus Economics
- Week 2 (3/18): Federal Debt (Brian Peterson, Central College)
- Week 3 (3/25): Trade and Globalization (Alan Deardorff, Univ. of Michigan)
- Week 4 (4/1): Healthcare Economics (Veronika Dolar, SUNY-Old Westbury)
- Week 5 (4/8): Economics of Immigration (Jennifer Alix-Garcia, Oregon St. Univ.)
- Week 6 (4/15): Economic Inequality (Kyle Montanio, Colorado University Denver)
- Week 7 (4/22): Economic Mobility (Kathryn Wilson, Kent State University)
- Week 8 (4/29): Discrimination in US Policy History (Jon Haveman, NEED)
- Week 9 (5/6): The Black-White Wealth Gap (Mike Shor, Univ. of Connecticut)
- Week 10 (5/13): The Gender Wage Gap (Mallika Pung, Univ. of New Mexico)

3

Trade and Globalization

Alan Deardorff, Ph.D. **University of Michigan**

NATIONAL ECONOMIC EDUCATION DELEGATION

Trade and Globalization

Alan V. Deardorff University of Michigan

Presentation to Osher Lifelong Learning Institute
American University
March 25, 2022

5

Impact of Russia-Ukraine War

• How Russia-Ukraine war impacts globalization

- War itself disrupts trade, especially exports of
 - Ukraine: wheat Russia: wheat, oil
- Economic sanctions by governments disrupt
 - o Financial linkages
 - o Trade
- Private companies stop dealing with Russia

7

Impact of Russia-Ukraine War

• Financial sanctions by US, EU, UK, and others

- Frozen foreign-held assets of individuals, Putin and dozens of others
- Restrictions on Russia's Central Bank's use of international reserves
- Several Russian banks removed from the Swift international payments system
- Cut off many Russian banks from transactions and operations
- Long list of Russian companies banned or restricted
- Possible restrictions on Russia borrowing from IMF and World Bank

Impact of Russia-Ukraine War

Trade sanctions by governments

- Oil and other energy
 - o Germany puts Nord Stream 2 gas pipeline on hold
 - o US bans from Russia
 - o UK to phase out Russian oil by end of 2022
 - $\circ\,$ EU to become independent from Russia by 2030
- EU bans steel imports from Russia
- US restricts exports to Russia, especially technology and military; later also to Belarus; later also luxury goods
- EU and UK impose export restrictions similar to US
- Ban on Russian air carriers by Canada, EU, US, UK
- G-7 to revoke Russia's most favored nation status
 - o Permits them to raise tariffs on Russian goods

9

Impact of Russia-Ukraine War

- Private Companies Stop Dealing in Russia, per NBC News updated Mar 16:
 - Automotive: Ford, GM, Toyota, ...
 - Aviation: Airbus, Boeing, American, Delta, United, ...
 - Energy: BP, ExxonMobil, Shell
 - Equipment: Caterpillar, Honeywell, Deere
 - Food & Bev: Burger King, Coke, McDonalds, Starbucks,...
 - Finance: Citigroup, Deutsche Bank, Vanguard, ...
 - Consumer goods: Proctor & Gamble, Unilever, Mars, ...
 - Leisure: Airbnb, Hilton, Expedia, ...
 - Logistics: DHL, FedEx, Maersk, UPS
 - Media: Netflix, Roku, Disney, ...
 - Payment services: Amex, Visa, Western Union, ...
 - And many more: Consulting, Retail, Technology

Effect of Sanctions

- Too soon to know fully
 - Will they stop Russia?
 - o Clearly no, or at least not yet
 - o Sanctions in the past have only sometimes worked
 - Will they reduce trade?
 - o They already have
 - o But Russia's role in trade is not large in most products
 - o Short-term effects are greater from the war itself

- What is Globalization?
- Pros and Cons of Trade
- Trade Policies
- The Role of Trade Agreements & WTO (if time)

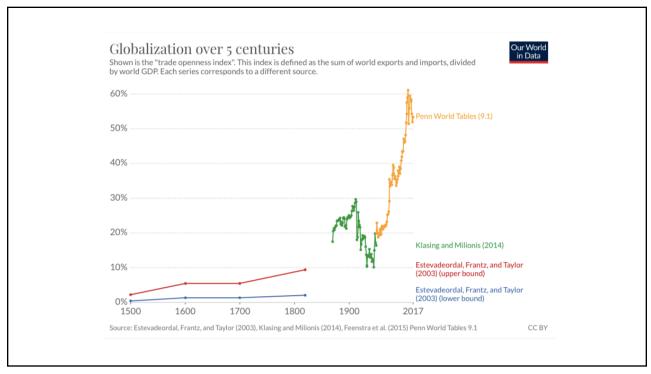

- Growth over time of many interactions between countries
 - Trade
 - Global Value Chains
 - Foreign Direct Investment
 - Financial Flows
 - International Travel
 - Migration
- I will focus here on trade

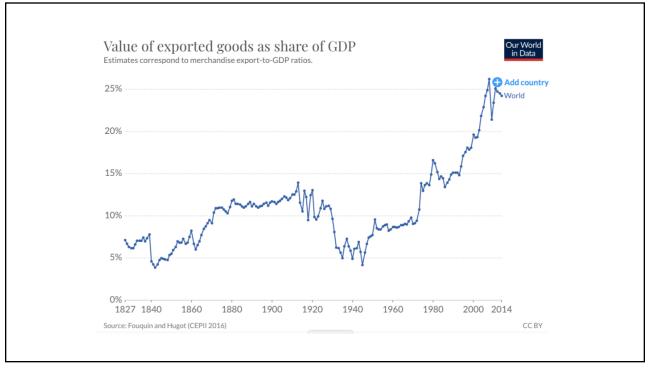

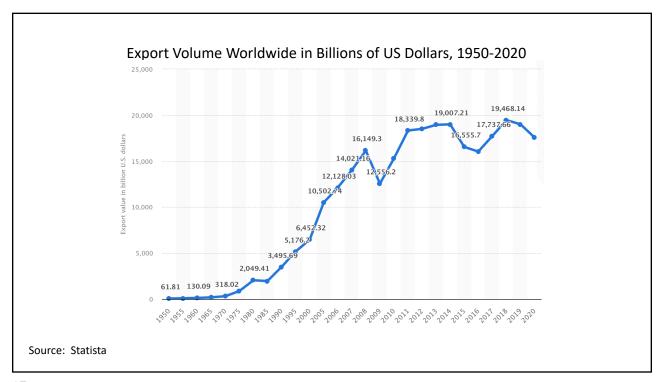

Effects on Economies

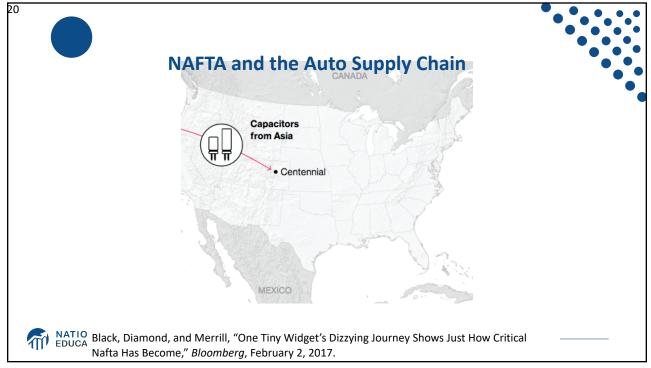

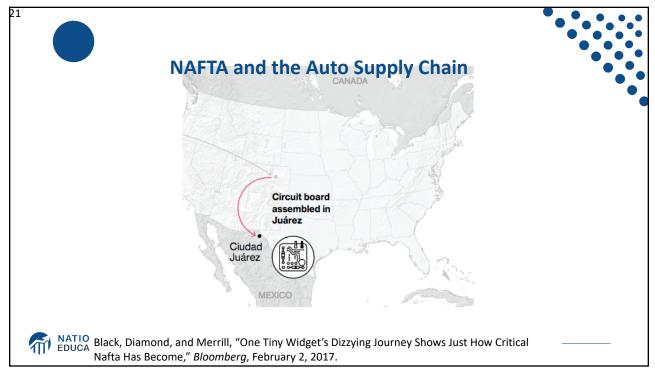

Supply Chains

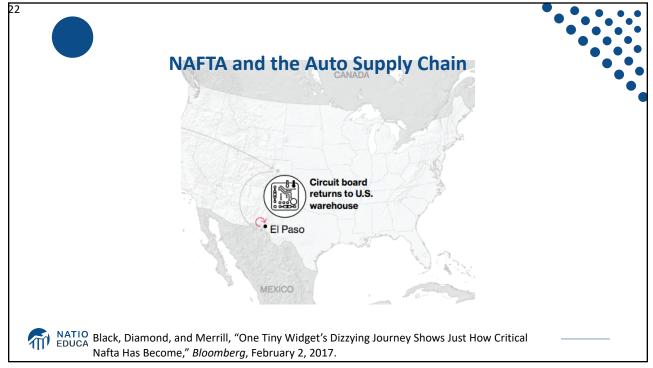

- Globalization has created long and complex international supply chains

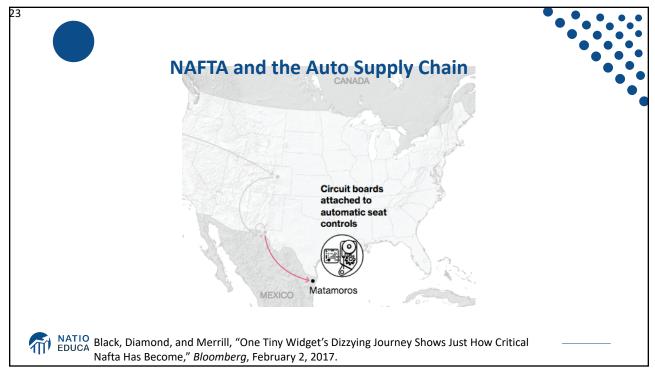

19

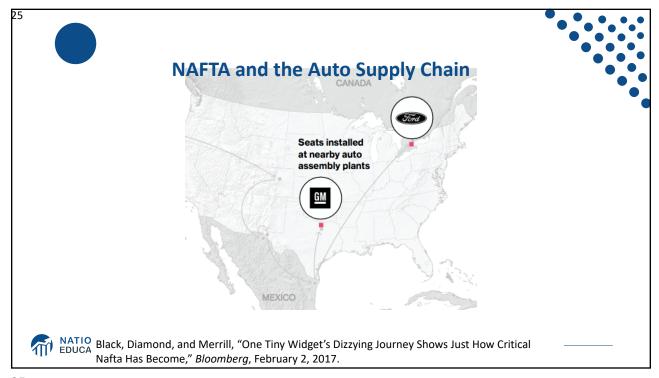

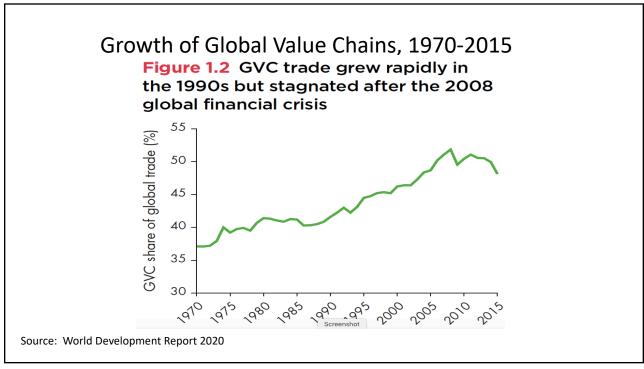

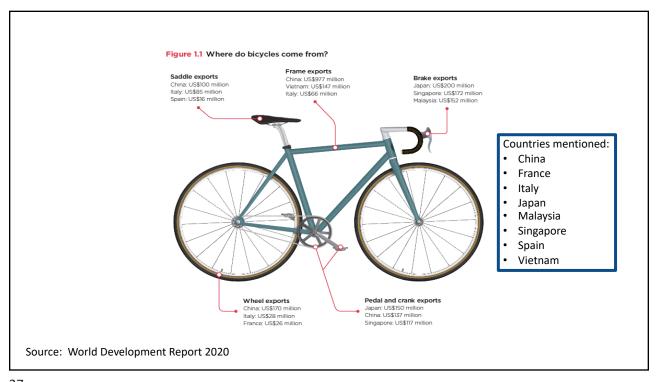

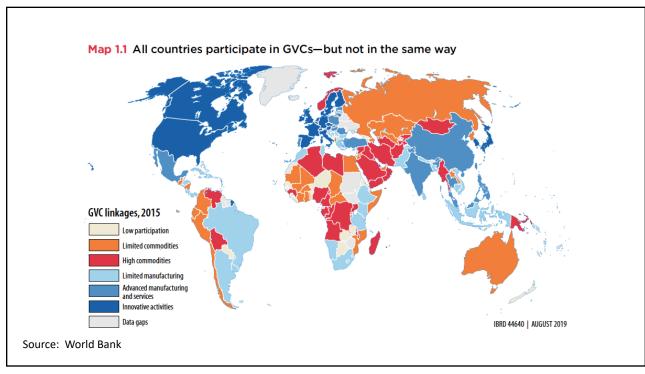

Pros and Cons of Globalization • Pros and Cons of Globalization • Gains from Trade • Theory of Comparative Advantage • Other Sources of Gain from Trade • Costs of Trade

Gains from Trade Theory of Comparative Advantage

31

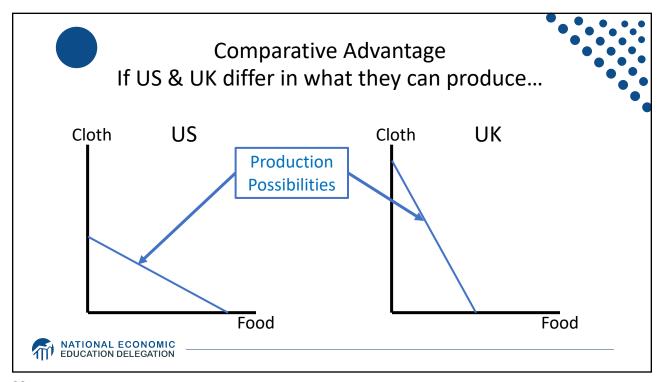

Comparative Advantage

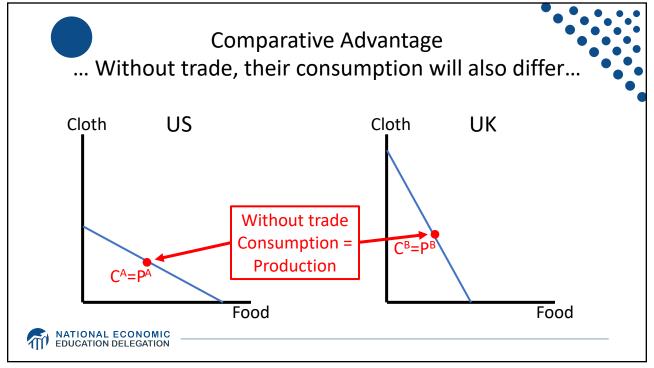

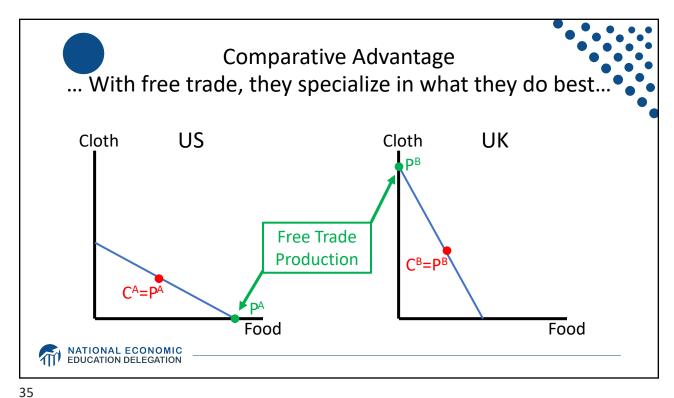

- The Theory of Comparative Advantage says:
 - Countries can gain,
 - By producing
 - More than they need of what they do relatively best, and
 - Less than they need of what they do relatively worst
 - o And exporting the extra to other countries in exchange for what they need
 - By doing that, ALL countries can
 - o Get more of everything, if that's what they want, and therefore
 - o Gain from trade
- Illustration with a graph of just 2 countries & 2 goods

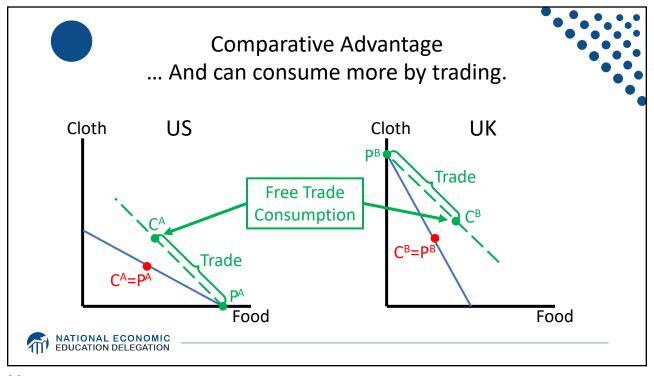

NATIONAL ECONOMIC EDUCATION DELEGATION

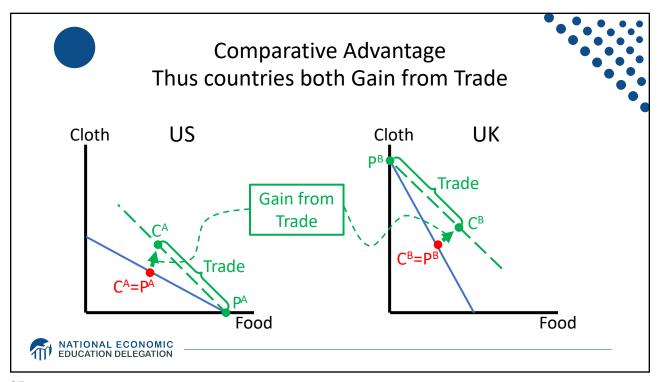

J.

Generality of Comparative Advantage

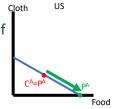

- The Theory of Comparative Advantage requires:
 - "Perfect competition" (i.e., all buyers and sellers are very small)
 - Absence of market "distortions" (externalities, etc.)
 - o i.e., reasons why supplies and demands don't reflect true costs and benefits
- The Theory of Comparative Advantage does <u>not</u> require:
 - Any limit on numbers of goods, factors, and countries
 - That only final goods are traded (thus consistent with supply chains)
 - That factors (labor, capital) be immobile between countries
 - (However, the gains from trade then accrue to countries including their mobile-factor owners.)

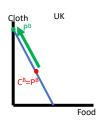

Generality of Comparative Advantage

• But note:

- Nothing in the theory says that <u>everyone</u> in each country gains
- Opening to trade requires
 - o Some industries to shrink or disappear while others expand
 - o Firms and workers in shrinking industries
 - · Certainly lose during the transition
 - May be permanently worse off
 - o In example, losers are producers of
 - Cloth in US
 - · Food in UK

Other sources of Gain from Trade

- **Productivity** (most productive firms expand and export)
- Returns to scale (small countries can support larger firms)
- Competition (monopolies in small countries lose market power)
- Variety (buyers, both consumers and firms, can access more choices)
- **Supply chains** (firms can source parts from cheapest or best sources)
 - (That's really just the above, but within industries and firms.)
- **Technology** (producers get access foreign technologies)

41

Costs of Trade

But there are Costs

• Economic:

- When trade expands (or contracts)
 - o Some firms lose market share or shut down
 - o Other firms supplying inputs to those firms shrink or shut down
 - o Workers in both lose jobs
 - Their communities lose customers
- Macroeconomic cost: Vulnerability to foreign recession/inflation
- Dependence on other countries' willingness to trade
- Vulnerability to trade disruption
 - o Crisis induced (earthquake, flood, disease, war)
 - Policy induced (sanctions, tariffs, export bans)

Non-economic

- Loss of cultural differences
- Spread of invasive species and plant disease
- Spread of human disease

43

- -Questions
- -5-Minute Break
- Next: Trade Policies

44

Trade Policies that Affect Globalization

- Policies that **Encourage It**
 - Tariff Reductions
 - Trade Agreements
 - Other
- Policies that <u>Dis</u>courage It
 - Trump's Tariffs
 - Trade War

45

Policies that Encourage Globalization

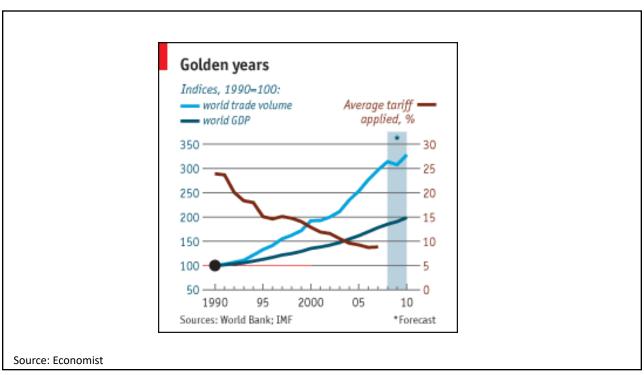

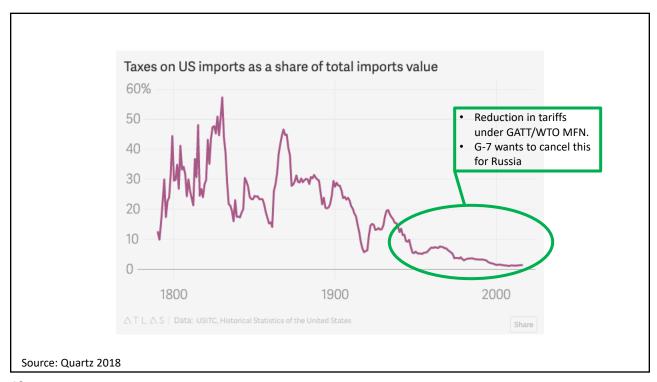

Tariff Reductions

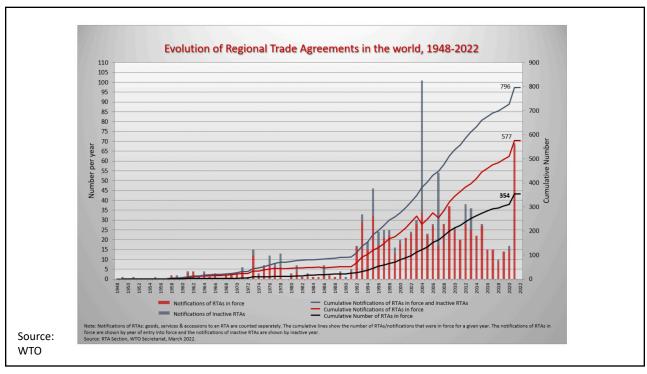

47

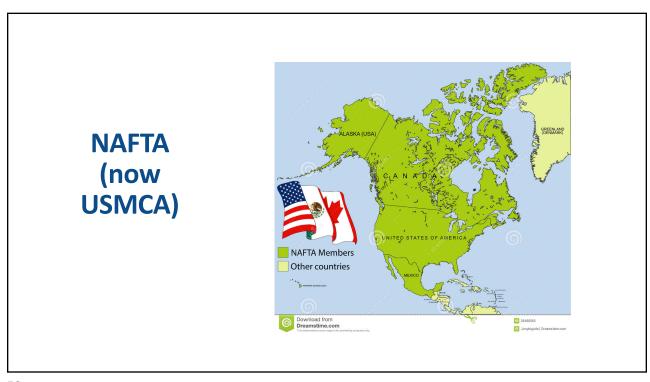

Other Policies to Encourage Globalization

- IMF/World Bank
 - Policy advice to open markets (the "Washington Consensus")
 - Loans to countries conditional on
 - o Reducing trade barriers
 - o Permitting capital flows
- GATT/WTO (World Trade Organization) [More on this later, if time]
 - Negotiate reciprocal trade liberalization
 - Settlement of trade disputes (usually about interfering with trade)
- Bilateral Investment Treaties
 - Better treatment of multinational corporations

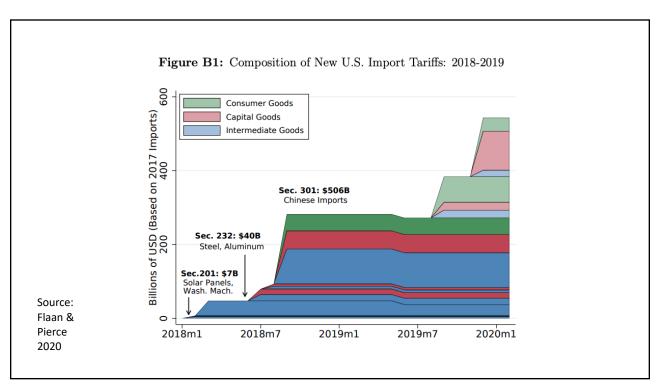

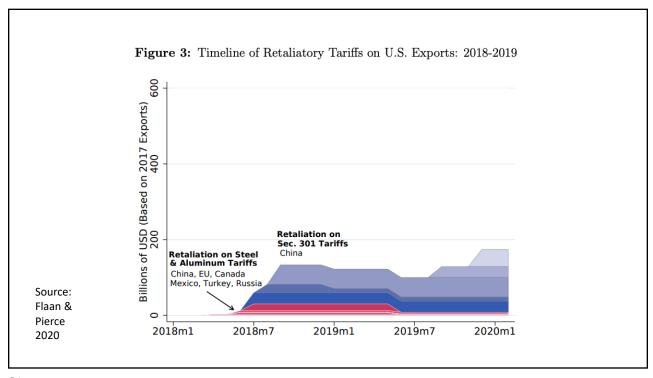

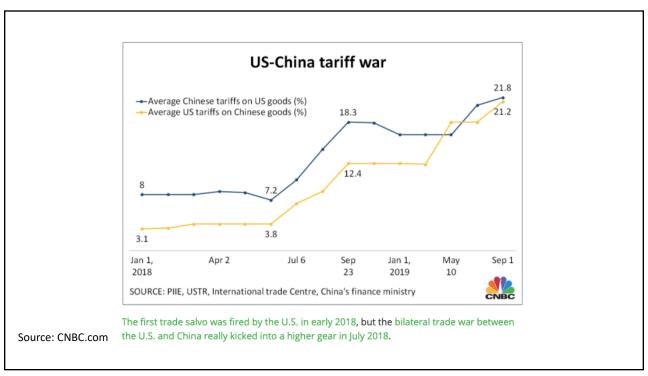

Trump's Tariffs and Trade War

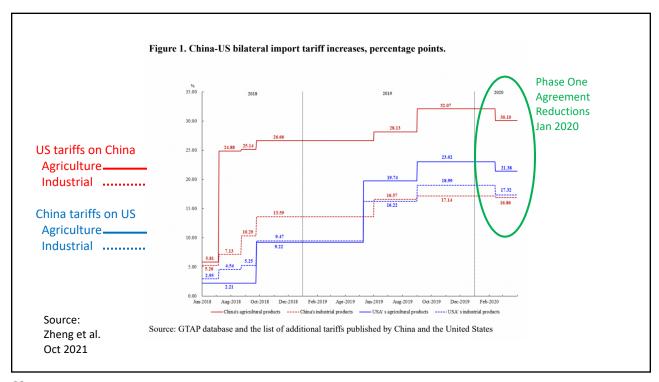

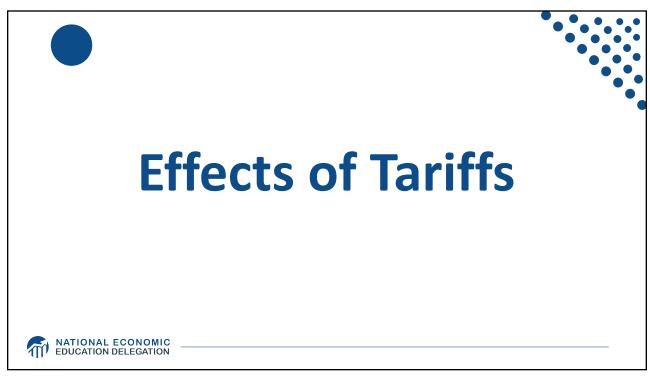

59

Effects of a tariff

A tariff is a tax on imports. It causes

- A rise in the price of the imported good in the importing country
- A fall in the price of the imported good in the exporting country
- The quantity imported to fall
- The revenue of the tariff-levying government to rise

Almost always: the <u>rise</u> at home is much larger than the <u>fall</u> abroad

- That's especially true if importing country is small
- But it's also true if importing country is as large as the U.S.
- Example: Trump's tariffs caused US prices to rise, with hardly any perceptible fall in prices abroad.

65

65

Effects of a tariff

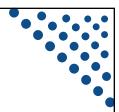

- A rise in price of competing goods produced there
- Benefits to those producers
- Harm to buyers of both the import and the competing goods
 - o Including producers that use the higher-priced goods as inputs
 - Their prices also rise, hurting their buyers
- Employment changes:
 - Increase in the protected industry
 - o Decrease in industries that use the protected product as inputs
- Example: Trump's 25% tariff on steel
 - o Helped US steel firms and their workers
 - o Hurt US auto firms and workers
 - · and many other industries that use steel

66

Effects of a tariff

- The fall in price in the exporting country causes
 - Harm to sellers there
 - Benefit to buyers there
 - Shift of sales to other countries
- If the tariff is on exports from only one country (e.g, China)
 - Buyers shift to imports from other, more costly, countries (e.g., Vietnam)

67

67

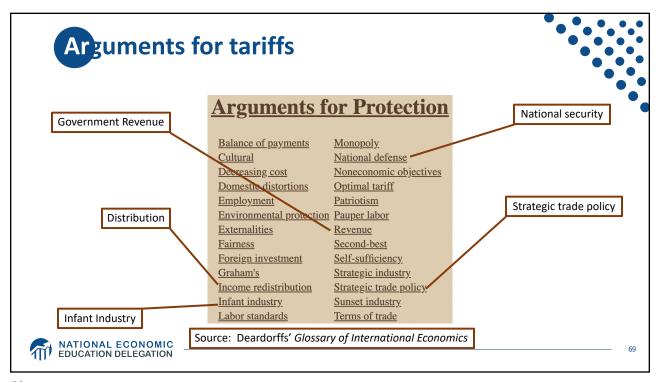

Arguments for and against tariffs

- If economists are so opposed to tariffs, why are they used?
- Arguments for protection
 - Many have been used, both past and present
 - See the list in my Glossary of International Economics

68

The Role of Trade Agreements

Countries have negotiated trade agreements throughout history

- At least back to the 1500's between the Ottoman Empire and the powers of Europe
- The first "free trade agreement" (FTA) was between Britain and France in 1860, soon followed by many more
 - o Removed tariffs on trade with each other
- US used "reciprocal trade agreements" starting in 1934 to reduce tariffs and dig out of the Great Depression
- US led negotiation of multilateral agreements via
 - o GATT (General Agreement on Tariffs and Trade) 1948
 - o WTO (World Trade Organization) 1995

71

The Role of Trade Agreements

- Trade Agreements (both WTO & FTAs)
 - Promote trade by
 - Reducing tariffs
 - Blocking policies that discriminate against imports
 - But they also do much else, mostly to serve business interests:
 - Permit anti-dumping duties to deter competition
 - o Protect intellectual property (patents, etc.)
 - Allow investor action against governments

The Role of Trade Agreements

• WTO

- 164 member countries
- Includes
 - o China since 2001
 - o Russia since 2012
 - o Not Iran, N. Korea
- Headquarters Geneva, Switzerland

73

The Role of Trade Agreements

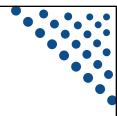

The WTO has

- Three Parts:
 - 1. GATT (Still exists, as largest part of WTO)
 - limits tariffs
 - 2. GATS = General Agreement on Trade in Services
 - 3. TRIPs Agreement = Trade Related aspects of Intellectual Property Rights
- Two Basic Principles
 - 1. Most Favored Nation (Don't discriminate among exporters)
 - 2. National Treatment (Don't discriminate against imports)

The Role of Trade Agreements

The WTO's Main Functions

- Negotiation of reduced trade barriers
 - o Tariffs (GATT did this well; WTO not)
 - Removal of other barriers
- Dispute settlement
 - Countries bring cases against others
 - ∘WTO "panels" and "Appellate Body" decide

77

The Role of Trade Agreements

WTO Dispute Settlement

- There have been 609 cases initiated since 1995 (as of 1/30/22)
- About 90% have been decided in favor of the complainant, both by (132) and against US (168)
- The mechanism has been unable to decided cases since December 10, 2019 when
 - o President Trump blocked appointments to Appellate Body
 - o President Biden has not changed this

NATIONAL ECONOMIC EDUCATION DELEGATION

Globalization's Future?

79

Globalization's Future?

- Yes, but only partly.
- They've been hit hard by financial crisis, trade war, pandemic, and now war
- Will attitudes change?
 - Yes.
 - Firm's will try to limit exposure
 - Consumers will learn to live differently
- Will economists' views of globalization change?
 - - We still think globalization is good overall,
 - o But we're learning that it needs to include
 - · Reduced reliance on single sources
 - Greater protections for those who are hurt.
