

Osher Lifelong Learning Institute, Winter 2023
Contemporary Economic Policy

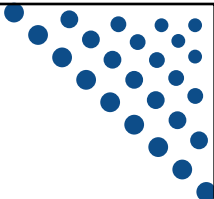

University of Cincinnati
January-March, 2023

Host: Jon Haveman, Ph.D.
National Economic Education Delegation

 NATIONAL ECONOMIC
EDUCATION DELEGATION

1

1

National Economic Education Delegation

- **Vision**
 - One day, the public discussion of policy issues will be grounded in an accurate perception of the underlying economic principles and data.
- **Mission**
 - NEED unites the skills and knowledge of a vast network of professional economists to promote understanding of the economics of policy issues in the United States.
- **NEED Presentations**
 - Are **nonpartisan** and intended to reflect the consensus of the economics profession.

 NATIONAL ECONOMIC
EDUCATION DELEGATION

2

2

Who Are We?

• Honorary Board: 54 members

- 2 Fed Chairs: Janet Yellen, Ben Bernanke
- 6 Chairs Council of Economic Advisers
 - o Furman (D), Rosen (R), Bernanke (R), Yellen (D), Tyson (D), Goolsbee (D)
- 3 Nobel Prize Winners
 - o Akerlof, Smith, Maskin

• Delegates: 652+ members

- At all levels of academia and some in government service
- All have a Ph.D. in economics
- Crowdsource slide decks
- Give presentations

• Global Partners: 48 Ph.D. Economists

- Aid in slide deck development

NATIONAL ECONOMIC EDUCATION DELEGATION

3

Where Are We?

NATIONAL ECONOMIC EDUCATION DELEGATION

4

Available NEED Topics Include:

- US Economy
- Healthcare Economics
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages
- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- Healthcare Economics

5

Course Outline

- **Contemporary Economic Policy**
 - Week 1 (1/26): **Trade and Globalization (Alan Deardorff, Univ. of Michigan)**
 - Week 2 (2/2): Trade Deficits and Exchange Rates (Alan Deardorff)
 - Week 3 (2/9): US Economic Update (Jon Haveman, NEED)
 - Week 4 (2/16): The Black-White Wealth Gap (Mike Shor, Univ. of Connecticut)
 - Week 5 (2/23): Economic Mobility (Kathryn Wilson, Kent State Univ.)
 - Week 6 (3/2): Climate Change Economics (Sarah Jacobson, Williams College)

6

7

8

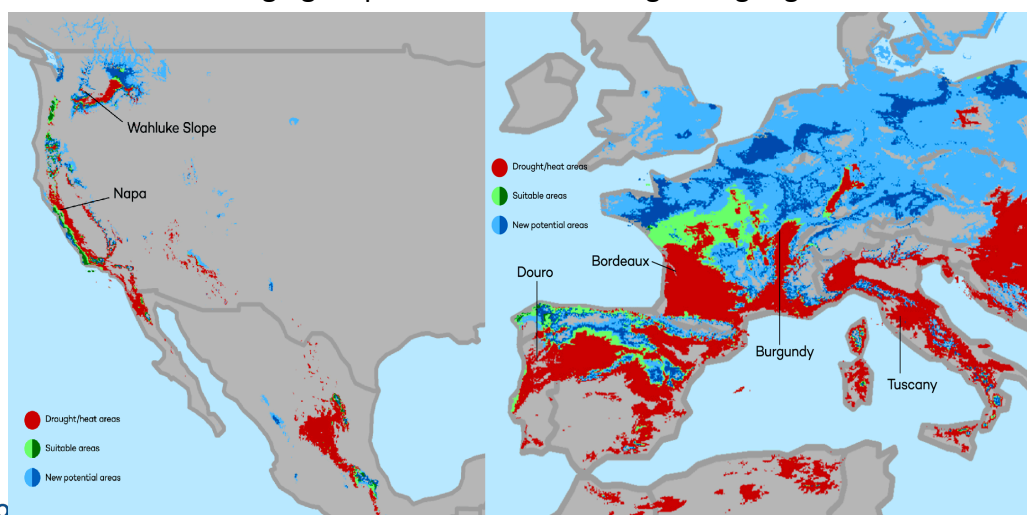

9

10

Climate Change Economics

The changing map of the world's wine-growing regions.

11

Submitting Questions

- **Please submit questions of clarification in the chat.**
 - I will try to handle them as they come up.
- **We will do a verbal Q&A once the material has been presented.**
- **OLLI allowing, we can stay beyond the end of class to have further discussion.**
- **Slides will be available from the NEED website tomorrow (https://needelegation.org/delivered_presentations.php)**

12

Trade and Globalization

Alan V. Deardorff
University of Michigan

Presentation to University of Cincinnati
January 26, 2023

Skip Ukraine War

13

14

Impact of Russia-Ukraine War

- **How Russia-Ukraine war impacts globalization**

- War itself disrupts trade, especially exports of
 - o Ukraine: wheat
 - o Russia: wheat, oil
- Economic sanctions by governments disrupt
 - o Financial linkages
 - o Trade
- Private companies stop dealing with Russia

NATIONAL ECONOMIC
EDUCATION DELEGATION

15

Impact of Russia-Ukraine War

- **Financial sanctions by US, EU, UK, and others**

- Frozen foreign-held assets of individuals, Putin and dozens of others
- Restrictions on Russia's Central Bank's use of international reserves
- Several Russian banks removed from the Swift international payments system
- Cut off many Russian banks from transactions and operations
- Long list of Russian companies banned or restricted
- Possible restrictions on Russia borrowing from IMF and World Bank

NATIONAL ECONOMIC
EDUCATION DELEGATION

16

Impact of Russia-Ukraine War

- **Trade sanctions by governments**
 - Oil and other energy
 - o Germany puts Nord Stream 2 gas pipeline on hold
 - o US bans from Russia
 - o UK to phase out Russian oil by end of 2022
 - o EU to become independent from Russia by 2030
 - EU bans steel imports from Russia
 - US restricts exports to Russia, especially technology and military; later also to Belarus; later also luxury goods
 - EU and UK impose export restrictions similar to US
 - Ban on Russian air carriers by Canada, EU, US, UK
 - G-7 to revoke Russia's most favored nation status
 - o Permits them to raise tariffs on Russian goods

Russia Sanctions, Gov't

26

Effect of Sanctions

- **Too soon to know fully**
 - Will they stop Russia?
 - Clearly no
 - Sanctions in the past have only sometimes worked
 - Will they reduce trade?
 - They did
 - But Russia's role in trade is not large in most products
 - Short-term effects are greater from the war itself

NATIONAL ECONOMIC
EDUCATION DELEGATION

27

Outline

- **What is Globalization?**
- **Pros and Cons of Trade**
- **Trade Policies**
- **The Role of Trade Agreements & WTO (if time)**

NATIONAL ECONOMIC
EDUCATION DELEGATION

28

What Globalizations Is

- **Growth over time of many economic interactions between countries**
 - Trade
 - Global Value Chains
 - Foreign Direct Investment
 - Financial Flows
 - International Travel
 - Migration
- **I will focus here on trade**

48

Pros and Cons of Globalization

- **Pros and Cons of Globalization**

- Gains from Trade
 - Theory of Comparative Advantage
 - Other Sources of Gain from Trade
- Costs of Trade

NATIONAL ECONOMIC
EDUCATION DELEGATION

49

Gains from Trade

Theory of Comparative Advantage

NATIONAL ECONOMIC
EDUCATION DELEGATION

50

Comparative Advantage

- **The Theory of Comparative Advantage says:**

- Countries can gain,
 - o By producing
 - More than they need of what they do relatively best, and
 - Less than they need of what they do relatively worst
 - o And exporting the extra to other countries in exchange for what they need
- By doing that, ALL countries can
 - o Get more of everything, if that's what they want, and therefore
 - o Gain from trade

- **Illustration with a graph of just 2 countries & 2 goods**

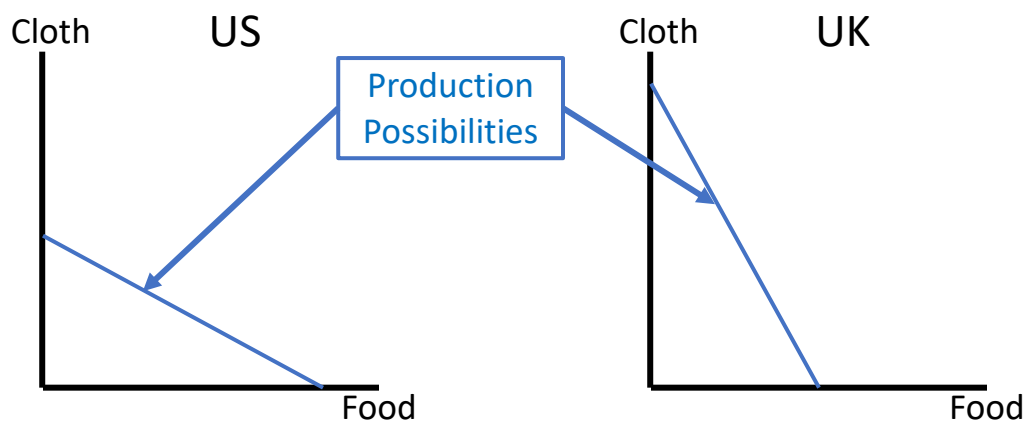

NATIONAL ECONOMIC
EDUCATION DELEGATION

51

Comparative Advantage If US & UK differ in what they can produce...

NATIONAL ECONOMIC
EDUCATION DELEGATION

52

53

54

55

56

Sources of Comparative Advantage

- Differences in countries' production possibilities

- These are due to differences in

- Resources
 - o Labor
 - o Land
 - o Capital
- Technologies (know-how)

Generality of Comparative Advantage

- The Theory of Comparative Advantage requires:

- "Perfect competition" (i.e., all buyers and sellers are very small)
- Absence of market "distortions" (externalities, etc.)
 - o i.e., reasons why supplies and demands don't reflect true costs and benefits

- The Theory of Comparative Advantage does not require:

- Any limit on numbers of goods, factors, and countries
- That only final goods are traded (thus consistent with supply chains)
- That factors (labor, capital) be immobile between countries
 - o (However, the gains from trade then accrue to countries including their mobile-factor owners.)

Generality of Comparative Advantage

• But note:

- Nothing in the theory says that everyone in each country gains
- Opening to trade requires
 - Some industries to shrink or disappear while others expand
 - Firms and workers in shrinking industries
 - Certainly lose during the transition
 - May be permanently worse off
 - In example, losers are producers of
 - Cloth in US
 - Food in UK

NATIONAL ECONOMIC
EDUCATION DELEGATION

59

Gains from Trade

Other Sources of Gain from Trade

NATIONAL ECONOMIC
EDUCATION DELEGATION

60

Other sources of Gain from Trade

- **Productivity** (most productive firms expand and export)
- **Returns to scale** (small countries can support larger firms)
- **Competition** (monopolies in small countries lose market power)
- **Variety** (buyers, both consumers and firms, can access more choices)
- **Supply chains** (firms can source parts from cheapest or best sources)
 - (That's really just the above, but within industries and firms.)
- **Technology** (producers get access foreign technologies)

NATIONAL ECONOMIC
EDUCATION DELEGATION

61

Costs of Trade

NATIONAL ECONOMIC
EDUCATION DELEGATION

62

But there are Costs

- **Economic:**
 - When trade expands (or contracts)
 - o Some firms lose market share or shut down
 - o Other firms supplying inputs to those firms shrink or shut down
 - o Workers in both lose jobs
 - o And their **communities** lose customers
 - Macroeconomic cost: Vulnerability to foreign recession/inflation
 - Dependence on other countries' willingness to trade
 - Vulnerability to trade disruption
 - o Crisis induced (earthquake, flood, disease, war)
 - o Policy induced (sanctions, tariffs, export bans)
- **Non-economic**
 - Loss of cultural differences
 - Spread of invasive species and plant disease
 - Spread of human disease

Pause

- **Pause for**
 - Questions
 - 5-Minute Break
- **Next: Trade Policies**

Trade Policies that Affect Globalization

- Policies that Encourage It
 - Tariff Reductions
 - Trade Agreements
 - Other
- Policies that Discourage It
 - Trump's Tariffs
 - Trade War

NATIONAL ECONOMIC
EDUCATION DELEGATION

70

71

72

NAFTA (now USMCA)

73

MERCOSUR

74

75

76

RCEP
=
**Regional
Comprehensive
Economic
Partnership**

77

Other Policies to Encourage Globalization

- **IMF/World Bank**

- Policy advice to open markets (the "Washington Consensus")
- Loans to countries conditional on
 - o Reducing trade barriers
 - o Permitting capital flows

- **GATT/WTO (World Trade Organization) [More on this later, if time]**

- Negotiate reciprocal trade liberalization
- Settlement of trade disputes (usually about interfering with trade)

- **Bilateral Investment Treaties**

- Better treatment of multinational corporations

NATIONAL ECONOMIC
EDUCATION DELEGATION

78

Policies that Discourage Globalization

NATIONAL ECONOMIC
EDUCATION DELEGATION

79

Trump's Tariffs and Trade War

NATIONAL ECONOMIC
EDUCATION DELEGATION

80

Figure B1: Composition of New U.S. Import Tariffs: 2018-2019

81

Figure 3: Timeline of Retaliatory Tariffs on U.S. Exports: 2018-2019

82

83

84

Effects of Tariffs

 NATIONAL ECONOMIC
EDUCATION DELEGATION

85

Effects of a tariff

- **A tariff is a tax on imports. It causes**
 - A rise in the price of the imported good in the importing country
 - A fall in the price of the imported good in the exporting country
 - The quantity imported to fall
 - The revenue of the tariff-levying government to rise
- **Almost always: the rise at home is much larger than the fall abroad**
 - That's especially true if importing country is small
 - But it's also true if importing country is as large as the U.S.
 - Example: Trump's tariffs caused US prices to rise, with hardly any perceptible fall in prices abroad.

 NATIONAL ECONOMIC
EDUCATION DELEGATION

86

Effects of a tariff

- **The rise in price in the importing country causes**
 - A rise in price of competing goods produced there
 - Benefits to those producers
 - Harm to buyers of both the import and the competing goods
 - o Including producers that use the higher-priced goods as inputs
 - Their prices also rise, hurting their buyers
 - Employment changes:
 - o Increase in the protected industry
 - o Decrease in industries that use the protected product as inputs
 - Example: Trump's 25% tariff on steel
 - o Helped US steel firms and their workers
 - o Hurt US auto firms and workers
 - and many other industries that use steel

87

U.S. Auto Jobs Jeopardized by Trump's Steel Tariffs

88

- “Nationally, steel and aluminum tariffs resulted in at least 75,000 job losses in metal-using industries by the end of last year [2019],
 - according to an analysis by Lydia Cox, a Ph.D. candidate in economics at Harvard University, and Kadee Russ, an economics professor at the University of California, Davis.”

 NATIONAL ECONOMIC EDUCATION DELEGATION 89

89

Effects of a tariff

- **If the tariff is on exports from only one country (e.g, China)**
 - Buyers shift to imports from other, more costly, countries (e.g., Vietnam)
 - Sellers shift to export to other countries that pay less
 - Both lose a little

 NATIONAL ECONOMIC EDUCATION DELEGATION 90

90

Arguments for and against tariffs

- If economists are so opposed to tariffs, why are they used?
- Arguments for protection
 - Many have been used, both past and present
 - Some are potentially valid, but better policies exist
 - See the list in my Glossary of International Economics

NATIONAL ECONOMIC EDUCATION DELEGATION 91

Source: Deardorffs' *Glossary of International Economics*

NATIONAL ECONOMIC EDUCATION DELEGATION 92

92

Arguments against tariffs

- **Arguments against tariffs**

- Economic gains from trade (see above)
- Tariffs prompt retaliation
- Some valid arguments for tariffs depend on information that is either
 - o Unavailable, or
 - o Available only from the protected industry
- Even when net beneficial, tariffs are politically hard to remove
- **Lower tariffs and greater trade reduce the likelihood of war**

NATIONAL ECONOMIC
EDUCATION DELEGATION

Skip to Conclusions

93

93

The Role of Trade Agreements

- **Countries have negotiated trade agreements throughout history**

- At least back to the 1500's between the Ottoman Empire and the powers of Europe
- The first "free trade agreement" (FTA) was between Britain and France in 1860, soon followed by many more
 - o Removed tariffs on trade with each other
- US used "reciprocal trade agreements" starting in 1934 to reduce tariffs and dig out of the Great Depression
- US led negotiation of multilateral agreements via
 - o GATT (General Agreement on Tariffs and Trade) 1948
 - o WTO (World Trade Organization) 1995

NATIONAL ECONOMIC
EDUCATION DELEGATION

94

The Role of Trade Agreements

• Trade Agreements (both WTO & FTAs)

- Promote trade by
 - Reducing tariffs
 - Blocking policies that discriminate against imports
- But they also do much else, mostly to serve business interests:
 - Permit anti-dumping duties to deter competition
 - Protect intellectual property (patents, etc.)
 - Allow investor action against governments

NATIONAL ECONOMIC
EDUCATION DELEGATION

95

The Role of Trade Agreements

• WTO

- 164 member countries
- Includes
 - China since 2001
 - Russia since 2012
 - Not Iran, N. Korea
- Headquarters Geneva, Switzerland

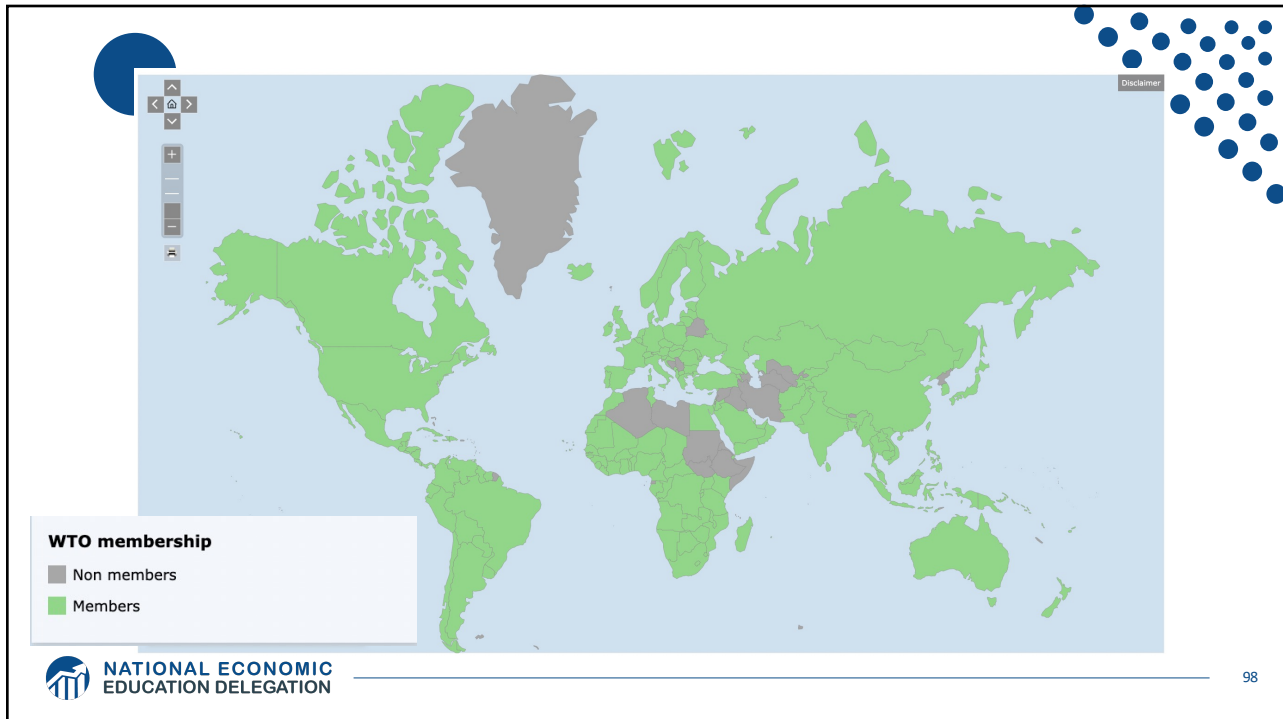

NATIONAL ECONOMIC
EDUCATION DELEGATION

96

97

98

The Role of Trade Agreements

• The WTO has

- Three Parts:

1. GATT (Still exists, as largest part of WTO)
 - limits tariffs
 - Permits exceptions (anti-dumping, etc.)
2. GATS = General Agreement on Trade in Services
3. TRIPs Agreement = Trade Related aspects of Intellectual Property Rights

- Two Basic Principles

1. Most Favored Nation (Don't discriminate among exporters)
2. National Treatment (Don't discriminate against imports)

NATIONAL ECONOMIC
EDUCATION DELEGATION

99

The Role of Trade Agreements

• The WTO's Main Functions

- Negotiation of reduced trade barriers

- Tariffs (GATT did this well; WTO has not)
- Removal of other barriers

- Dispute settlement

- Countries bring cases against others
- WTO "panels" and "Appellate Body" decide

NATIONAL ECONOMIC
EDUCATION DELEGATION

100

The Role of Trade Agreements

• WTO Negotiation

- Ministerial Meetings
 - Held every ~2 years 1996-2017
 - Most recent, #12, was delayed,
 - But happened June 12-17, 2022, in Geneva
 - Didn't do much: Ended subsidies to illegal fishing
 - Next, #13, will be in 2024, in United Arab Emirates

NATIONAL ECONOMIC
EDUCATION DELEGATION

101

The Role of Trade Agreements

• WTO Negotiation

- Agreements
 - Multilateral (all members)
 - None on tariffs
 - A few on other measures (e.g., export subsidies in agriculture)
 - Plurilateral (willing members)
 - Information technology
 - Telecoms
 - Financial services

NATIONAL ECONOMIC
EDUCATION DELEGATION

102

The Role of Trade Agreements

• WTO Dispute Settlement

- There have been 615 cases initiated since 1995 (as of 1/10/23)
- About 90% have been decided in favor of the complainant, both by US (132) and against US (168)
- The mechanism has been unable to decide cases since December 10, 2019 when
 - o President Trump blocked appointments to Appellate Body
 - o President Biden has not changed this

NATIONAL ECONOMIC
EDUCATION DELEGATION

103

Globalization's Future?

NATIONAL ECONOMIC
EDUCATION DELEGATION

104

Globalization's Future?

- **Will trade, travel, etc. come back?**
 - Yes, but only partly.
 - They've been hit hard by financial crisis, trade war, pandemic, and now war
- **Will attitudes change?**
 - Yes.
 - Firm's will try to limit exposure ("just in case" instead of "just in time")
 - Consumers may learn to live differently
 - Reported July 20: Biden administration wants "friend-shoring." No mention yet of policies.
- **Will economists' views of globalization change?**
 - I think so.
 - We still think globalization is good overall,
 - But we're learning that it needs to include
 - Reduced reliance on single sources
 - Greater protections for those who are hurt.

NATIONAL ECONOMIC
EDUCATION DELEGATION
