

Osher Lifelong Learning Institute, Fall 2022 **Contemporary Economic Policy Issues**

Duke University
Fall, 2022

Jon Haveman, Ph.D.
National Economic Education Delegation

1

Available NEED Topics Include:

- US Economy
- Healthcare Economics
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages
- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- Healthcare Economics

2

Course Outline

- **Contemporary Economic Policy**

- Week 1 (9/19): US Economy (Geoffrey Woglom, Amherst College)
- **Week 2 (10/3): Trade and Globalization (Alan Deardorff, Univ. of Michigan)**
- Week 3 (10/10): Economics of Immigration (Roger White, Whittier College)
- Week 4 (10/17): Cryptocurrencies (Geoffrey Woglom, Amherst College)
- Week 5 (10/24): Trade Deficit and Exchange Rates (Alan Deardorff)
- Week 6 (10/31): Autonomous Vehicles (Jon Haveman, NEED)

3

Submitting Questions

- **Please submit questions of clarification in the chat.**
 - I will try to handle them as they come up.
- **We will do a verbal Q&A once the material has been presented.**
- **OLLI allowing, we can stay beyond the end of class to have further discussion.**
- **Slides will be available from the NEED website tomorrow (https://needelegation.org/delivered_presentations.php)**

4

Trade and Globalization

Alan V. Deardorff
University of Michigan

Presentation to Osher Lifelong Learning Institute
Duke University
October 3, 2022

5

6

Impact of Russia-Ukraine War

• How Russia-Ukraine war impacts globalization

- War itself disrupts trade, especially exports of
 - o Ukraine: wheat
 - o Russia: wheat, oil
- Economic sanctions by governments disrupt
 - o Financial linkages
 - o Trade
- Private companies stop dealing with Russia

NATIONAL ECONOMIC
EDUCATION DELEGATION

7

Impact of Russia-Ukraine War

• Financial sanctions by US, EU, UK, and others

- Frozen foreign-held assets of individuals, Putin and dozens of others
- Restrictions on Russia's Central Bank's use of international reserves
- Several Russian banks removed from the Swift international payments system
- Cut off many Russian banks from transactions and operations
- Long list of Russian companies banned or restricted
- Possible restrictions on Russia borrowing from IMF and World Bank

NATIONAL ECONOMIC
EDUCATION DELEGATION

8

Impact of Russia-Ukraine War

- **Trade sanctions by governments**
 - Oil and other energy
 - o Germany puts Nord Stream 2 gas pipeline on hold
 - o US bans from Russia
 - o UK to phase out Russian oil by end of 2022
 - o EU to become independent from Russia by 2030
 - EU bans steel imports from Russia
 - US restricts exports to Russia, especially technology and military; later also to Belarus; later also luxury goods
 - EU and UK impose export restrictions similar to US
 - Ban on Russian air carriers by Canada, EU, US, UK
 - G-7 to revoke Russia's most favored nation status
 - o Permits them to raise tariffs on Russian goods

Russia Sanctions, Gov't

12

Impact of Russia-Ukraine War

- **Private Companies Stop Dealing in Russia, per NBC News updated Mar 16:**
 - Automotive: Ford, GM, Toyota, ...
 - Aviation: Airbus, Boeing, American, Delta, United, ...
 - Energy: BP, ExxonMobil, Shell
 - Equipment: Caterpillar, Honeywell, Deere
 - Food & Bev: Burger King, Coke, McDonalds, Starbucks,...
 - Finance: Citigroup, Deutsche Bank, Vanguard, ...
 - Consumer goods: Proctor & Gamble, Unilever, Mars, ...
 - Leisure: Airbnb, Hilton, Expedia, ...
 - Logistics: DHL, FedEx, Maersk, UPS
 - Media: Netflix, Roku, Disney, ...
 - Payment services: Amex, Visa, Western Union, ...
 - And many more: Consulting, Retail, Technology

Effect of Sanctions

- **Too soon to know fully**
 - Will they stop Russia?
 - Clearly no, or at least not yet
 - Sanctions in the past have only sometimes worked
 - Will they reduce trade?
 - They already have
 - But Russia's role in trade is not large in most products
 - Short-term effects are greater from the war itself

NATIONAL ECONOMIC
EDUCATION DELEGATION

19

Outline

- **What is Globalization?**
- **Pros and Cons of Trade**
- **Trade Policies**
- **The Role of Trade Agreements & WTO (if time)**

NATIONAL ECONOMIC
EDUCATION DELEGATION

20

What Globalizations Is

- **Growth over time of many economic interactions between countries**
 - Trade
 - Global Value Chains
 - Foreign Direct Investment
 - Financial Flows
 - International Travel
 - Migration
- **I will focus here on trade**

NATIONAL ECONOMIC
EDUCATION DELEGATION

NATIONAL ECONOMIC EDUCATION DELEGATION

36

36

37

Pros and Cons of Globalization

- **Pros and Cons of Globalization**
 - Gains from Trade
 - Theory of Comparative Advantage
 - Other Sources of Gain from Trade
 - Costs of Trade

 NATIONAL ECONOMIC EDUCATION DELEGATION

38

Gains from Trade

Theory of Comparative Advantage

NATIONAL ECONOMIC
EDUCATION DELEGATION

39

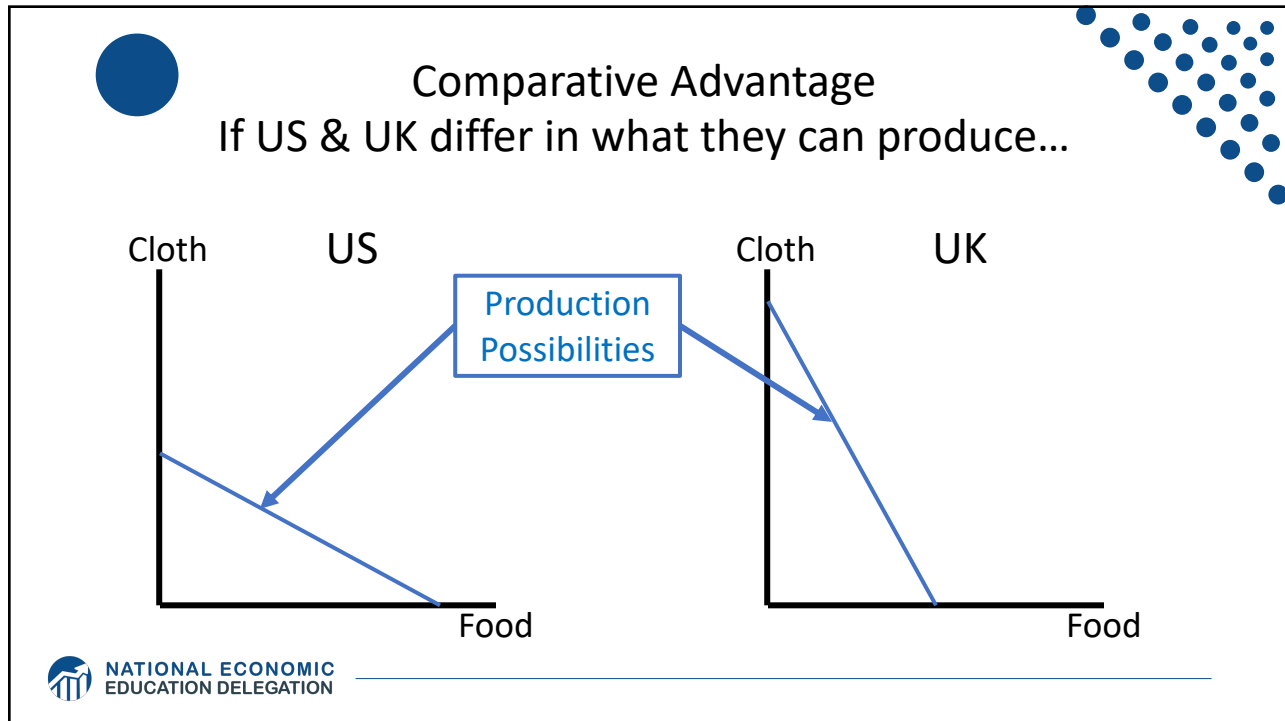

Comparative Advantage

- **The Theory of Comparative Advantage says:**
 - Countries can gain,
 - By producing
 - More than they need of what they do relatively best, and
 - Less than they need of what they do relatively worst
 - And exporting the extra to other countries in exchange for what they need
 - By doing that, ALL countries can
 - Get more of everything, if that's what they want, and therefore
 - Gain from trade
- **Illustration with a graph of just 2 countries & 2 goods**

NATIONAL ECONOMIC
EDUCATION DELEGATION

40

41

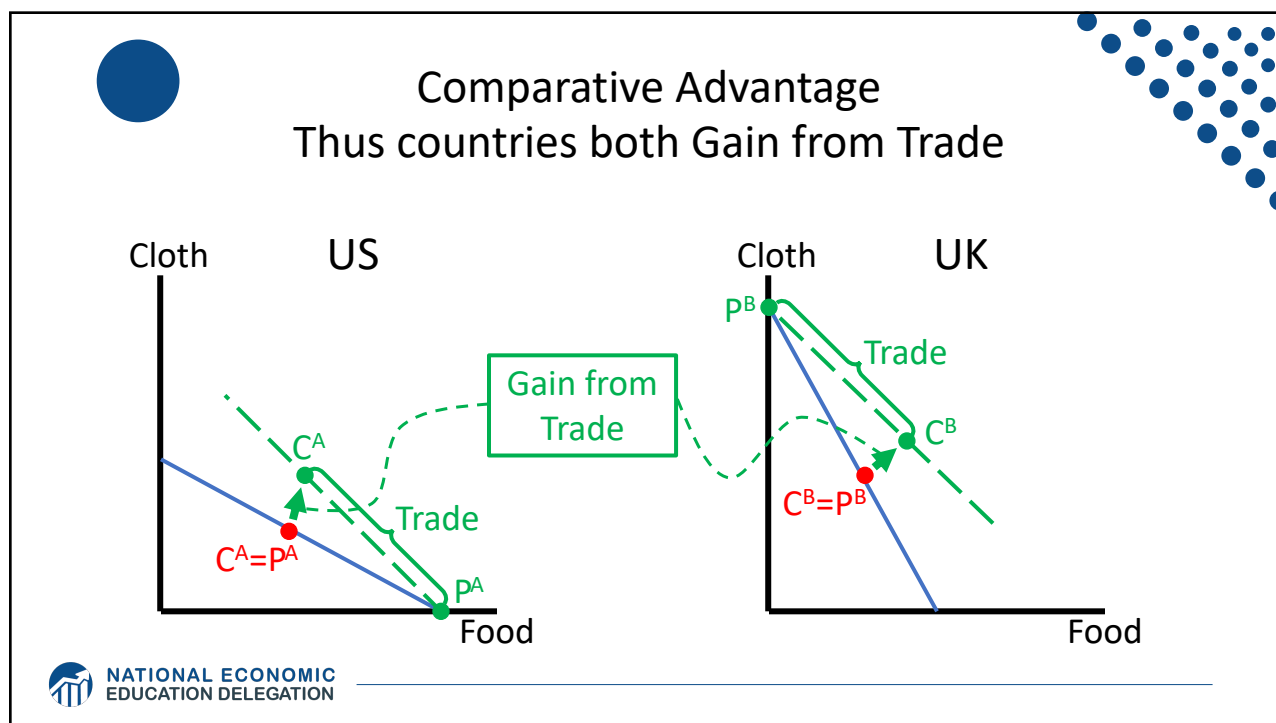

42

43

44

45

Generality of Comparative Advantage

- **The Theory of Comparative Advantage requires:**
 - “Perfect competition” (i.e., all buyers and sellers are very small)
 - Absence of market “distortions” (externalities, etc.)
 - i.e., reasons why supplies and demands don’t reflect true costs and benefits
- **The Theory of Comparative Advantage does not require:**
 - Any limit on numbers of goods, factors, and countries
 - That only final goods are traded (thus consistent with supply chains)
 - That factors (labor, capital) be immobile between countries
 - (However, the gains from trade then accrue to countries including their mobile-factor owners.)

NATIONAL ECONOMIC
EDUCATION DELEGATION

46

Generality of Comparative Advantage

• But note:

- Nothing in the theory says that everyone in each country gains
- Opening to trade requires
 - Some industries to shrink or disappear while others expand
 - Firms and workers in shrinking industries
 - Certainly lose during the transition
 - May be permanently worse off
 - In example, losers are producers of
 - Cloth in US
 - Food in UK

Gains from Trade

Other Sources of Gain from Trade

Other sources of Gain from Trade

- **Productivity** (most productive firms expand and export)
- **Returns to scale** (small countries can support larger firms)
- **Competition** (monopolies in small countries lose market power)
- **Variety** (buyers, both consumers and firms, can access more choices)
- **Supply chains** (firms can source parts from cheapest or best sources)
 - (That's really just the above, but within industries and firms.)
- **Technology** (producers get access foreign technologies)

NATIONAL ECONOMIC
EDUCATION DELEGATION

49

Costs of Trade

NATIONAL ECONOMIC
EDUCATION DELEGATION

50

But there are Costs

- **Economic:**
 - When trade expands (or contracts)
 - o Some firms lose market share or shut down
 - o Other firms supplying inputs to those firms shrink or shut down
 - o Workers in both lose jobs
 - o And their **communities** lose customers
 - Macroeconomic cost: Vulnerability to foreign recession/inflation
 - Dependence on other countries' willingness to trade
 - Vulnerability to trade disruption
 - o Crisis induced (earthquake, flood, disease, war)
 - o Policy induced (sanctions, tariffs, export bans)
- **Non-economic**
 - Loss of cultural differences
 - Spread of invasive species and plant disease
 - Spread of human disease

Pause

- **Pause for**
 - Questions
 - 5-Minute Break
- **Next: Trade Policies**

Trade Policies that Affect Globalization

- Policies that Encourage It
 - Tariff Reductions
 - Trade Agreements
 - Other
- Policies that Discourage It
 - Trump's Tariffs
 - Trade War

Policies that Encourage Globalization

Tariff Reductions

Trade Agreements

NATIONAL ECONOMIC
EDUCATION DELEGATION

58

59

60

NAFTA (now USMCA)

61

MERCOSUR

62

CPTPP
=
**Trans-Pacific
Partnership
minus US**

63

RCEP
=
**Regional
Comprehensive
Economic
Partnership**

64

Other Policies to Encourage Globalization

- **IMF/World Bank**
 - Policy advice to open markets (the "Washington Consensus")
 - Loans to countries conditional on
 - Reducing trade barriers
 - Permitting capital flows
- **GATT/WTO (World Trade Organization) [More on this later, if time]**
 - Negotiate reciprocal trade liberalization
 - Settlement of trade disputes (usually about interfering with trade)
- **Bilateral Investment Treaties**
 - Better treatment of multinational corporations

NATIONAL ECONOMIC
EDUCATION DELEGATION

65

Policies that Discourage Globalization

NATIONAL ECONOMIC

Flaan &
Pierce
2020

68

Figure 3: Timeline of Retaliatory Tariffs on U.S. Exports: 2018-2019

69

Source: CNBC.com The first trade salvo was fired by the U.S. in early 2018, but the bilateral trade war between the U.S. and China really kicked into a higher gear in July 2018.

70

Figure 1. China-US bilateral import tariff increases, percentage points.

Source:
Zheng et al.
Oct 2021

Source: GTAP database and the list of additional tariffs published by China and the United States

71

Effects of Tariffs

72

Effects of a tariff

- **A tariff is a tax on imports. It causes**
 - A rise in the price of the imported good in the importing country
 - A fall in the price of the imported good in the exporting country
 - The quantity imported to fall
 - The revenue of the tariff-levying government to rise
- **Almost always: the rise at home is much larger than the fall abroad**
 - That's especially true if importing country is small
 - But it's also true if importing country is as large as the U.S.
 - Example: Trump's tariffs caused US prices to rise, with hardly any perceptible fall in prices abroad.

73

Effects of a tariff

- **The rise in price in the importing country causes**
 - A rise in price of competing goods produced there
 - Benefits to those producers
 - Harm to buyers of both the import and the competing goods
 - o Including producers that use the higher-priced goods as inputs
 - Their prices also rise, hurting their buyers
 - Employment changes:
 - o Increase in the protected industry
 - o Decrease in industries that use the protected product as inputs
 - Example: Trump's 25% tariff on steel
 - o Helped US steel firms and their workers
 - o Hurt US auto firms and workers
 - and many other industries that use steel

74

75

Effects of a tariff

- **The fall in price in the exporting country causes**
 - Harm to sellers there
 - Benefit to buyers there
 - Shift of sales to other countries

- **If the tariff is on exports from only one country (e.g, China)**
 - Buyers shift to imports from other, more costly, countries (e.g., Vietnam)

The logo for the National Economic Education Delegation is in the bottom left corner.

76

Arguments for and against tariffs

- If economists are so opposed to tariffs, why are they used?
- Arguments for protection
 - Many have been used, both past and present
 - Some are potentially valid, but better policies exist
 - See the list in my Glossary of International Economics

Arguments for tariffs

Source: Deardorff's *Glossary of International Economics*

Arguments against tariffs

- **Arguments against tariffs**

- Economic gains from trade (see above)
- Tariffs prompt retaliation
- Some valid arguments for tariffs depend on information that is either
 - o Unavailable, or
 - o Available only from the protected industry
- Even when net beneficial, tariffs are politically hard to remove
- **Lower tariffs and greater trade reduce the likelihood of war**

NATIONAL ECONOMIC
EDUCATION DELEGATION

Skip to Conclusions

79

79

The Role of Trade Agreements

- **Countries have negotiated trade agreements throughout history**

- At least back to the 1500's between the Ottoman Empire and the powers of Europe
- The first "free trade agreement" (FTA) was between Britain and France in 1860, soon followed by many more
 - o Removed tariffs on trade with each other
- US used "reciprocal trade agreements" starting in 1934 to reduce tariffs and dig out of the Great Depression
- US led negotiation of multilateral agreements via
 - o GATT (General Agreement on Tariffs and Trade) 1948
 - o WTO (World Trade Organization) 1995

NATIONAL ECONOMIC
EDUCATION DELEGATION

80

The Role of Trade Agreements

• Trade Agreements (both WTO & FTAs)

- Promote trade by
 - Reducing tariffs
 - Blocking policies that discriminate against imports
- But they also do much else, mostly to serve business interests:
 - Permit anti-dumping duties to deter competition
 - Protect intellectual property (patents, etc.)
 - Allow investor action against governments

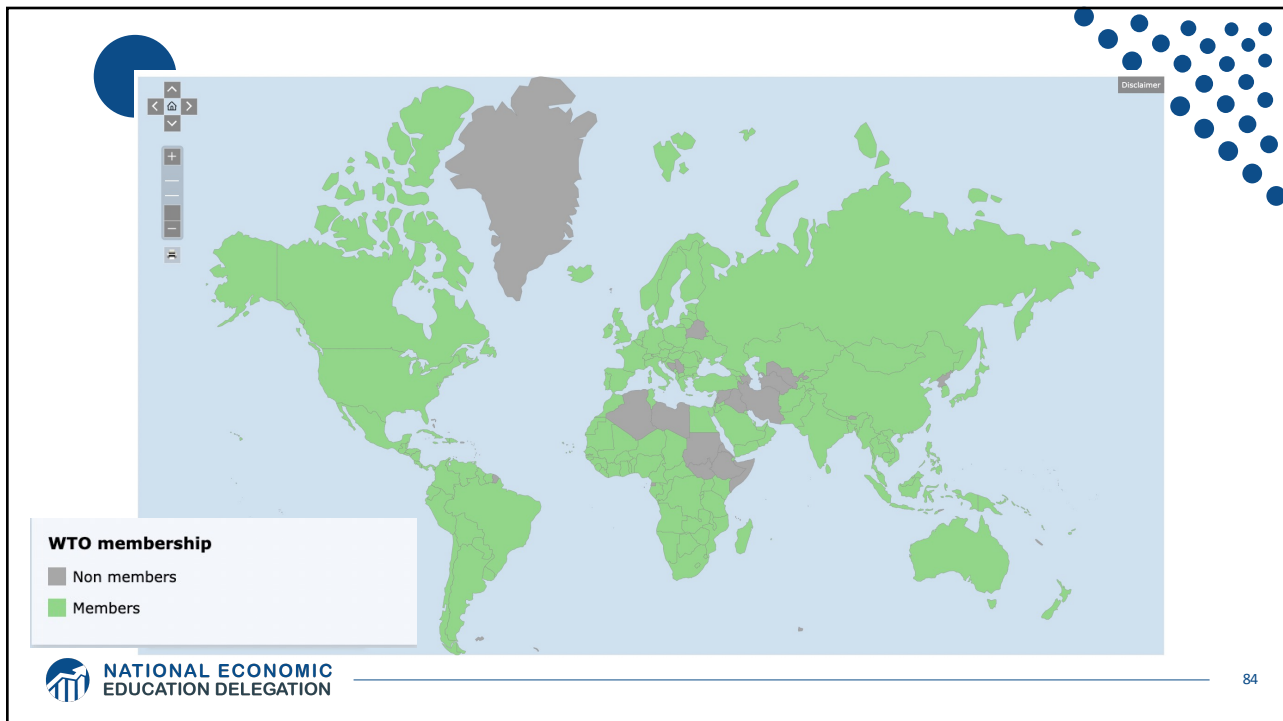

The Role of Trade Agreements

• WTO

- 164 member countries
- Includes
 - China since 2001
 - Russia since 2012
 - Not Iran, N. Korea
- Headquarters Geneva, Switzerland

83

84

The Role of Trade Agreements

• The WTO has

- Three Parts:

1. GATT (Still exists, as largest part of WTO)
 - limits tariffs
 - Permits exceptions (anti-dumping, etc.)
2. GATS = General Agreement on Trade in Services
3. TRIPs Agreement = Trade Related aspects of Intellectual Property Rights

- Two Basic Principles

1. Most Favored Nation (Don't discriminate among exporters)
2. National Treatment (Don't discriminate against imports)

NATIONAL ECONOMIC
EDUCATION DELEGATION

85

The Role of Trade Agreements

• The WTO's Main Functions

- Negotiation of reduced trade barriers

- Tariffs (GATT did this well; WTO did not)
- Removal of other barriers

- Dispute settlement

- Countries bring cases against others
- WTO "panels" and "Appellate Body" decide

NATIONAL ECONOMIC
EDUCATION DELEGATION

86

The Role of Trade Agreements

• WTO Negotiation

- Ministerial Meetings
 - Held every ~2 years 1996-2017
 - Next #12 was delayed,
 - But is happening now, through tomorrow, in Geneva
 - Agreements
 - Multilateral
 - None on tariffs
 - A few on other measures (e.g., export subsidies in agriculture)
 - Plurilateral
 - Information technology
 - Telecoms
 - Financial services

The Role of Trade Agreements

• WTO Dispute Settlement

- There have been 612 cases initiated since 1995 (as of 6/15/22)
- About 90% have been decided in favor of the complainant, both by US (132) and against US (168)
- The mechanism has been unable to decide cases since December 10, 2019 when
 - President Trump blocked appointments to Appellate Body
 - President Biden has not changed this

Globalization's Future?

 NATIONAL ECONOMIC
EDUCATION DELEGATION

89

Globalization's Future?

- **Will trade, travel, etc. come back?**
 - Yes, but only partly.
 - They've been hit hard by financial crisis, trade war, pandemic, and now war
- **Will attitudes change?**
 - Yes.
 - Firm's will try to limit exposure ("just in case" instead of "just in time")
 - Consumers will learn to live differently
 - Reported July 20: Biden administration wants "friend-shoring." No mention yet of policies.
- **Will economists' views of globalization change?**
 - I think so.
 - We still think globalization is good overall,
 - But we're learning that it needs to include
 - Reduced reliance on single sources
 - Greater protections for those who are hurt.
