

# Osher Lifelong Learning Institute, Winter 2023 Contemporary Economic Policy

University of Rhode Island January-February, 2023

Host: Jon Haveman, Ph.D. National Economic Education Delegation

1

## Available NEED Topics Include:

- US Economy
- Healthcare Economics
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages

- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- Healthcare Economics

2

2

## **Course Outline**

- Contemporary Economic Policy
  - Week 1 (1/10): Economic Update (Geoffrey Woglom, Amherst College)
  - Week 2 (1/17): Monetary Economics (Geoffrey Woglom)
  - Week 3 (1/24): Trade and Globalization (Alan Deardorff, Univ. of Michigan)
  - Week 4 (1/31): Trade Deficits and Exchange Rates (Alan Deardorff)
  - Week 5 (2/7): Autonomous Vehicles (Jon Haveman, NEED)

3

3

## **Submitting Questions**

- Please submit questions of clarification in the chat.
  - I will try to handle them as they come up.
- We will do a verbal Q&A once the material has been presented.
- OLLI allowing, we can stay beyond the end of class to have further discussion.
- Slides will be available from the NEED website tomorrow (https://needelegation.org/delivered\_presentations.php)

4

#### **Trade and Globalization**

# Alan V. Deardorff University of Michigan

Presentation to University of Rhode Island January 24, 2023

5

### Impact of Russia-Ukraine War

#### How Russia-Ukraine war impacts globalization

- War itself disrupts trade, especially exports of
  - Ukraine: wheat Russia: wheat, oil
- Economic sanctions by governments disrupt
  - o Financial linkages
  - o Trade
- Private companies stop dealing with Russia

7

### Impact of Russia-Ukraine War

#### • Financial sanctions by US, EU, UK, and others

- Frozen foreign-held assets of individuals, Putin and dozens of others
- Restrictions on Russia's Central Bank's use of international reserves
- Several Russian banks removed from the Swift international payments system
- Cut off many Russian banks from transactions and operations
- Long list of Russian companies banned or restricted
- Possible restrictions on Russia borrowing from IMF and World Bank

### Impact of Russia-Ukraine War

#### Trade sanctions by governments

- Oil and other energy
  - o Germany puts Nord Stream 2 gas pipeline on hold
  - o US bans from Russia
  - o UK to phase out Russian oil by end of 2022
  - o EU to become independent from Russia by 2030
- EU bans steel imports from Russia
- US restricts exports to Russia, especially technology and military; later also to Belarus; later also luxury goods
- EU and UK impose export restrictions similar to US
- Ban on Russian air carriers by Canada, EU, US, UK
- G-7 to revoke Russia's most favored nation status
  - o Permits them to raise tariffs on Russian goods

9

#### Russia Sanctions, Gov't

Countries		
Australia	Iceland	Singapore
Bahamas	Italy	Switzerland
Canada	Japan	Taiwan
EU	New Zealand	UK
Finland	Norway	US
France	Poland	
Germany	S Korea	

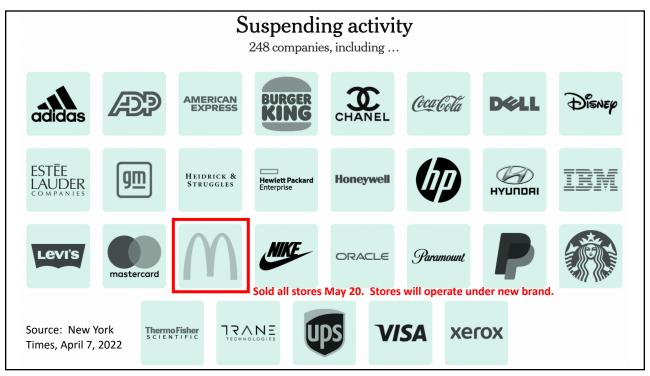

Source: Funakoshi et al, "Updated July 7, 2022" but includes from July 29

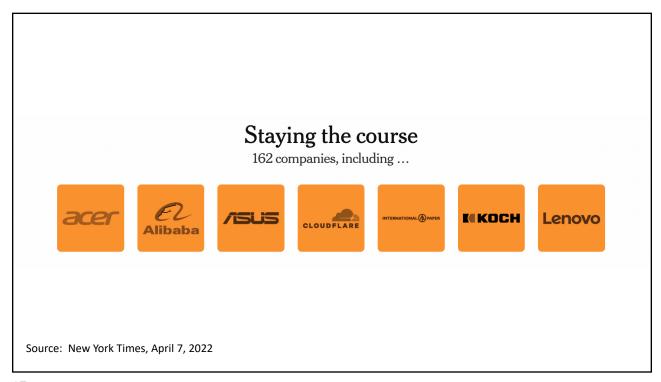

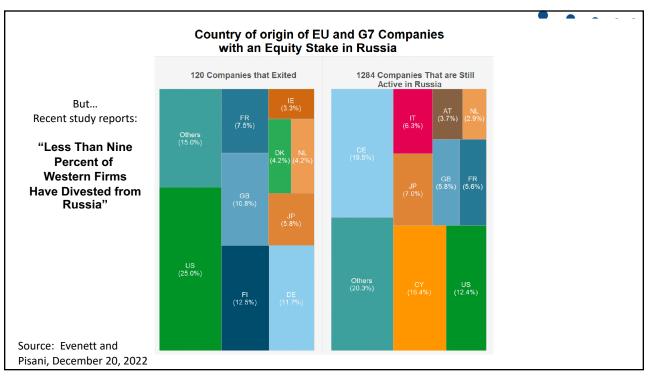

### **Effect of Sanctions**

- Too soon to know fully
  - Will they stop Russia?
    - o Clearly no
    - o Sanctions in the past have only sometimes worked
  - Will they reduce trade?
    - o They did
    - o But Russia's role in trade is not large in most products
    - o Short-term effects are greater from the war itself

19

- What is Globalization?
- Pros and Cons of Trade
- Trade Policies
- The Role of Trade Agreements & WTO (if time)

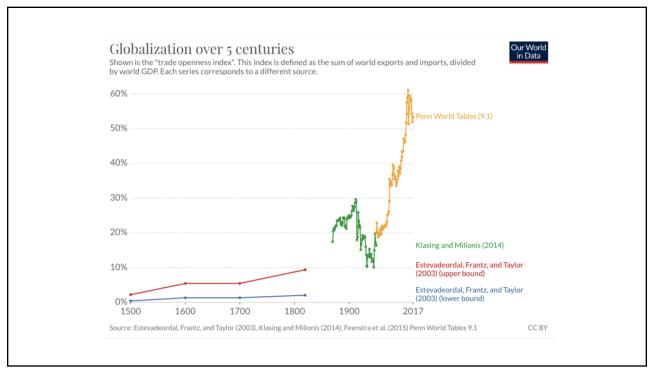

- Growth over time of many economic interactions between countries
  - Trade
  - Global Value Chains
  - Foreign Direct Investment
  - Financial Flows
  - International Travel
  - Migration
- I will focus here on trade

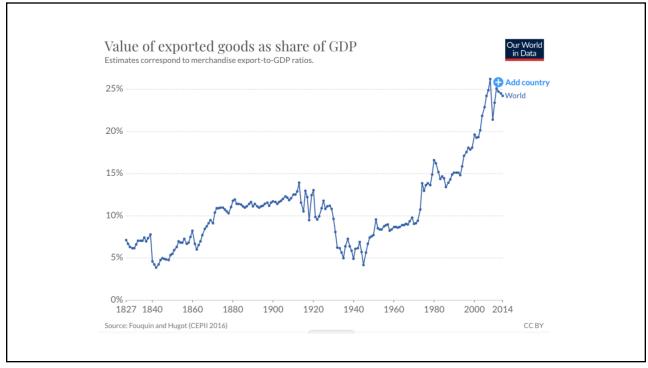

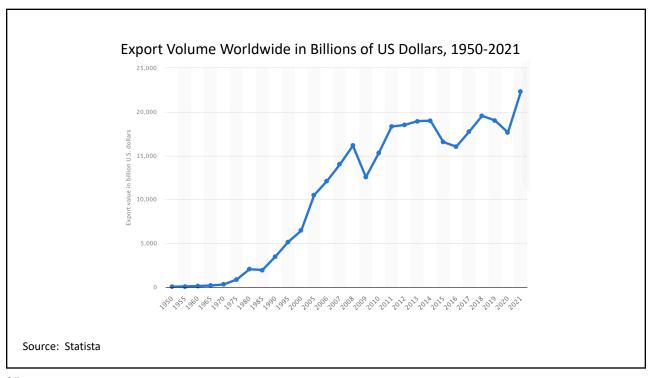

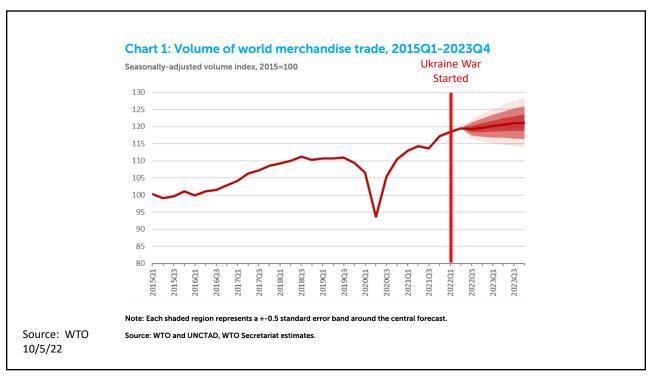

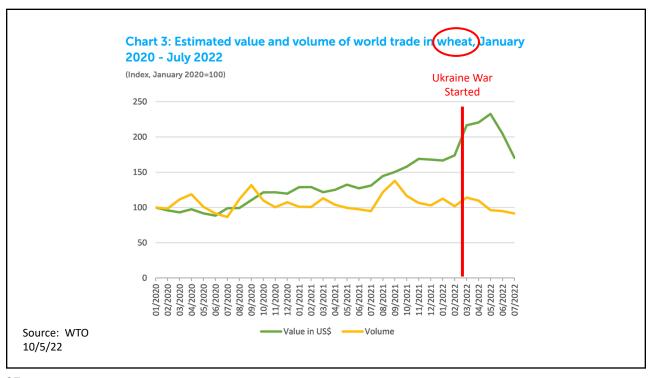

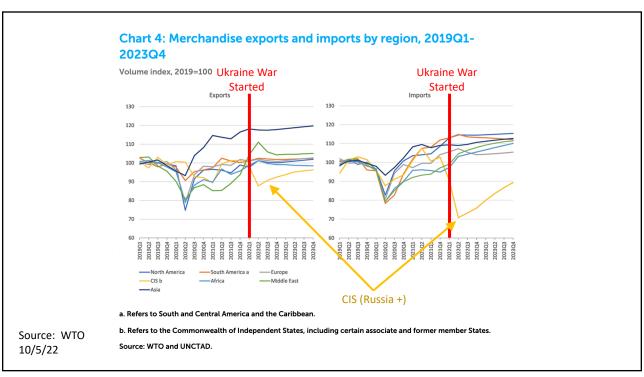

## **Global Value Chains**

29

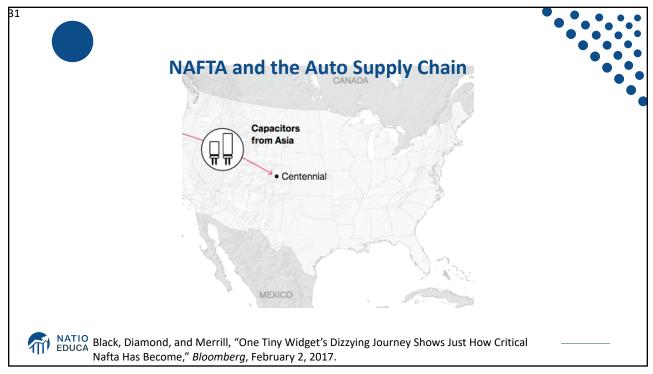

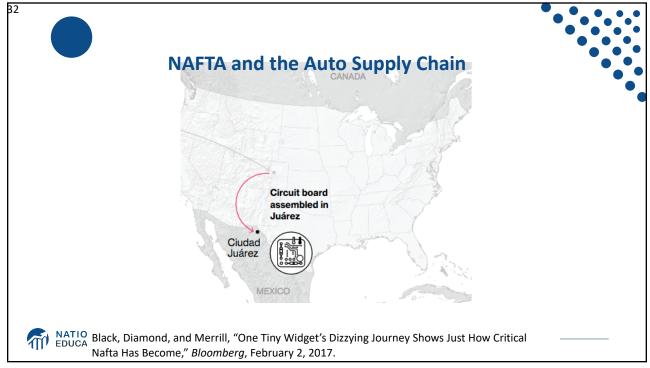

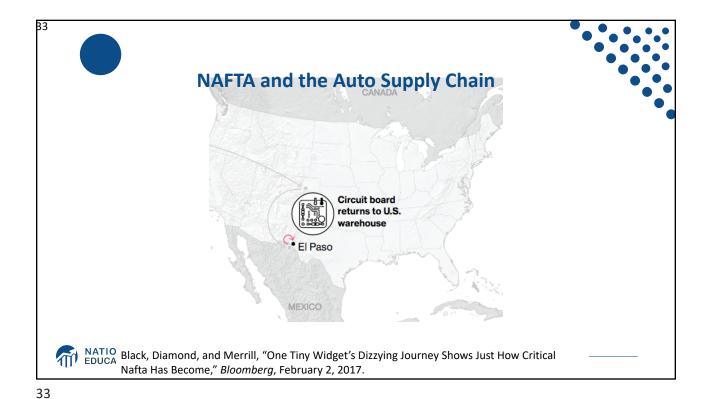

#### Supply Chains

- Globalization has created long and complex international supply chains

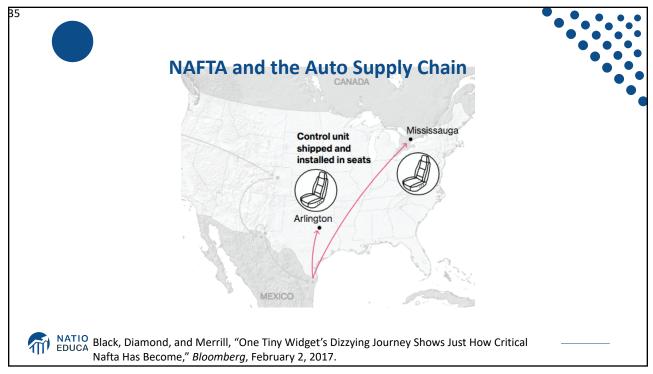

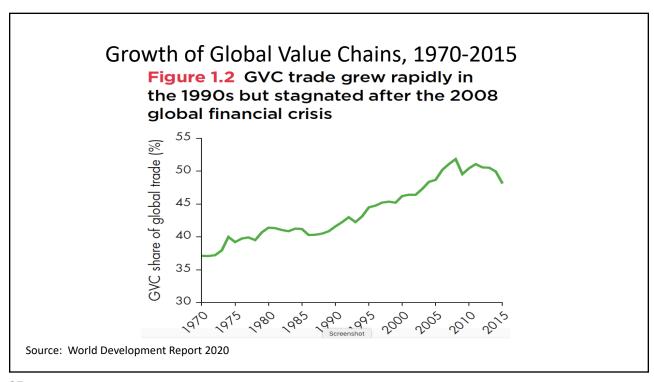

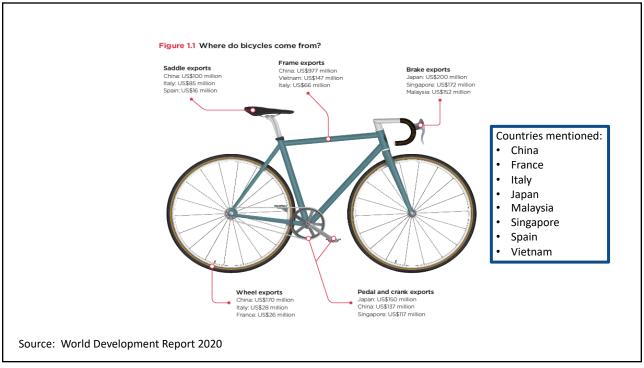

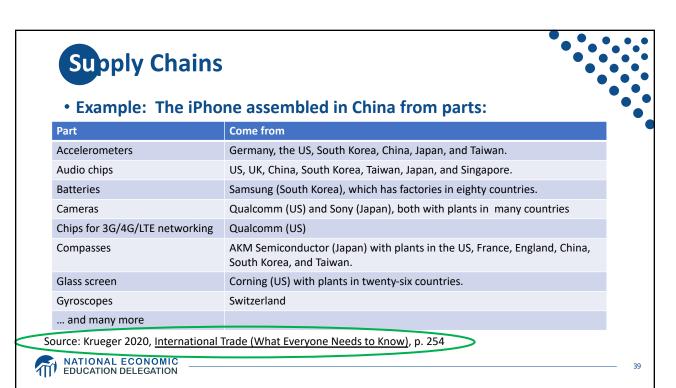

NATIO Black, Diamond, and Merrill, "One Tiny Widget's Dizzying Journey Shows Just How Critical Nafta Has Become," Bloomberg, February 2, 2017.

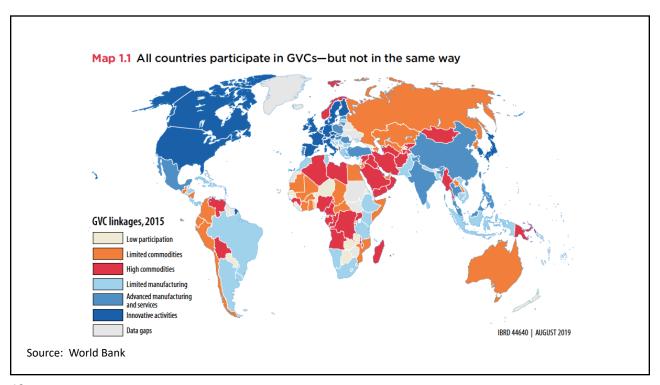

### Pros and Cons of Globalization

#### Pros and Cons of Globalization

- Gains from Trade
  - o Theory of Comparative Advantage
  - Other Sources of Gain from Trade
- Costs of Trade

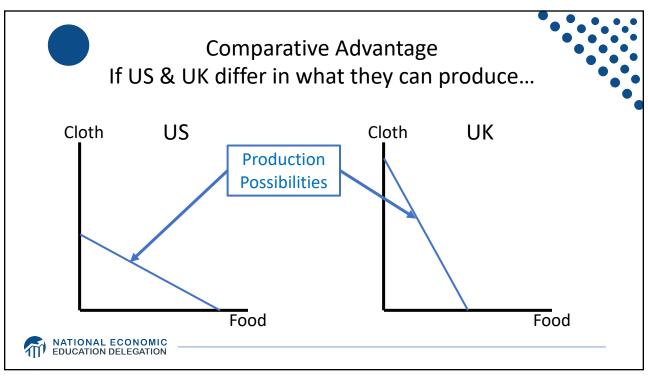

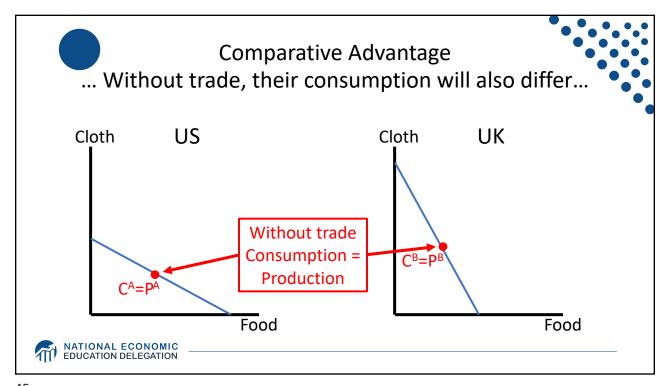

### **Comparative Advantage**

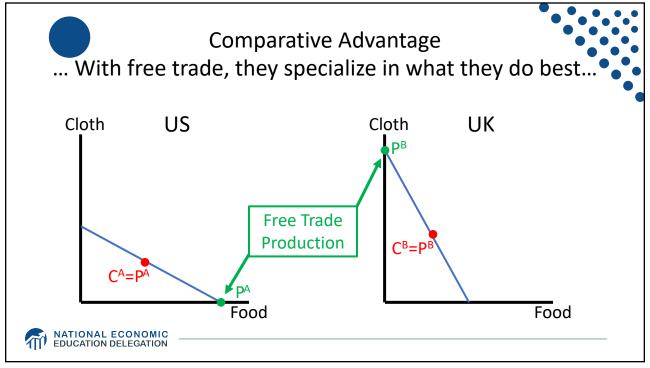

- The Theory of Comparative Advantage says:
  - Countries can gain,
    - o By producing
      - More than they need of what they do relatively best, and
      - · Less than they need of what they do relatively worst
    - o And exporting the extra to other countries in exchange for what they need
  - By doing that, ALL countries can
    - o Get more of everything, if that's what they want, and therefore
    - o Gain from trade
- Illustration with a graph of just 2 countries & 2 goods

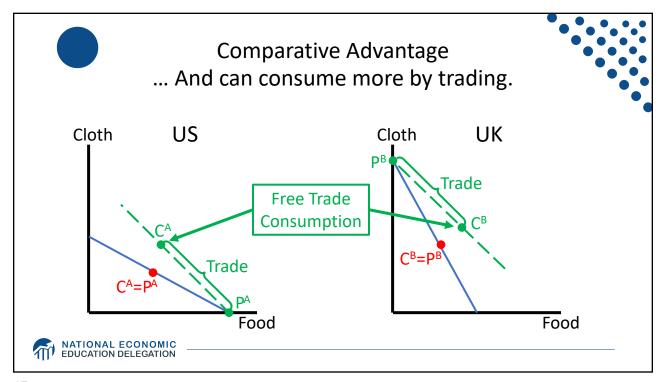

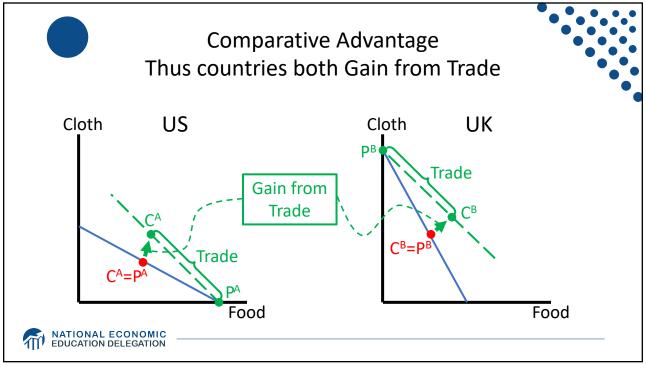

43

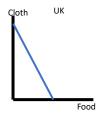

## **Sources of Comparative Advantage**

Differences in countries' production possibilities

These are due to differences in

- Resources
  - o Labor
  - o Land
  - o Capital
- Technologies (know-how)

49

### **Generality of Comparative Advantage**

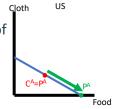

- The Theory of Comparative Advantage requires:
  - "Perfect competition" (i.e., all buyers and sellers are very small)
  - Absence of market "distortions" (externalities, etc.)
    - o i.e., reasons why supplies and demands don't reflect true costs and benefits
- The Theory of Comparative Advantage does <u>not</u> require:
  - Any limit on numbers of goods, factors, and countries
  - That only final goods are traded (thus consistent with supply chains)
  - That factors (labor, capital) be immobile between countries
    - (However, the gains from trade then accrue to countries including their mobile-factor owners.)

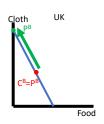

## **Generality of Comparative Advantage**

#### • But note:

- Nothing in the theory says that everyone in each country gains
- Opening to trade requires
  - o Some industries to shrink or disappear while others expand
  - o Firms and workers in shrinking industries
    - · Certainly lose during the transition
    - May be permanently worse off
  - o In example, losers are producers of
    - · Cloth in US
    - · Food in UK

## Other sources of Gain from Trade

- **Productivity** (most productive firms expand and export)
- Returns to scale (small countries can support larger firms)
- Competition (monopolies in small countries lose market power)
- Variety (buyers, both consumers and firms, can access more choices)
- **Supply chains** (firms can source parts from cheapest or best sources)
  - (That's really just the above, but within industries and firms.)
- **Technology** (producers get access foreign technologies)

53

# **Costs of Trade**

#### **But there are Costs**

#### • Economic:

- When trade expands (or contracts)
  - o Some firms lose market share or shut down
  - o Other firms supplying inputs to those firms shrink or shut down
  - o Workers in both lose jobs
  - And their communities lose customers
- Macroeconomic cost: Vulnerability to foreign recession/inflation
- Dependence on other countries' willingness to trade
- Vulnerability to trade disruption
  - o Crisis induced (earthquake, flood, disease, war)
  - Policy induced (sanctions, tariffs, export bans)

#### Non-economic

- Loss of cultural differences
- Spread of invasive species and plant disease
- Spread of human disease

55

- -Questions
- -5-Minute Break
- Next: Trade Policies

- Policies that Encourage It
  - Tariff Reductions
  - Trade Agreements
  - Other
- Policies that <u>Dis</u>courage It
  - Trump's Tariffs
  - Trade War

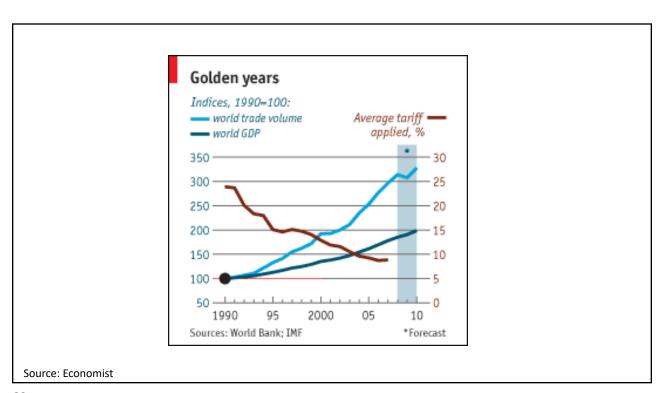

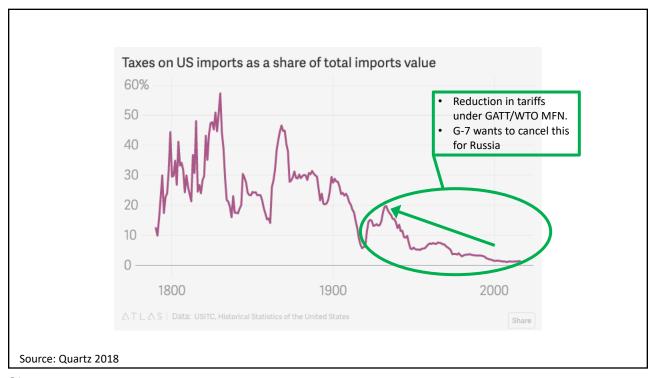

# **Tariff Reductions**

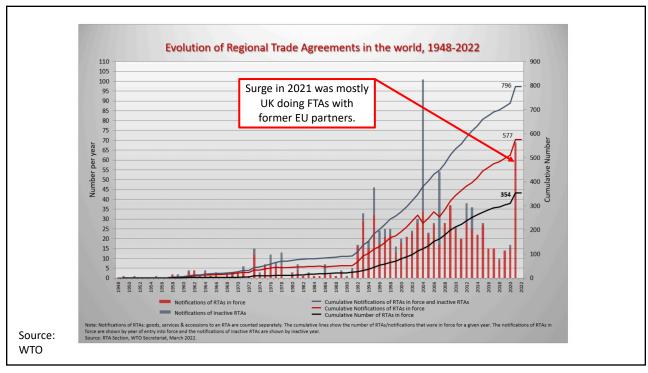

59

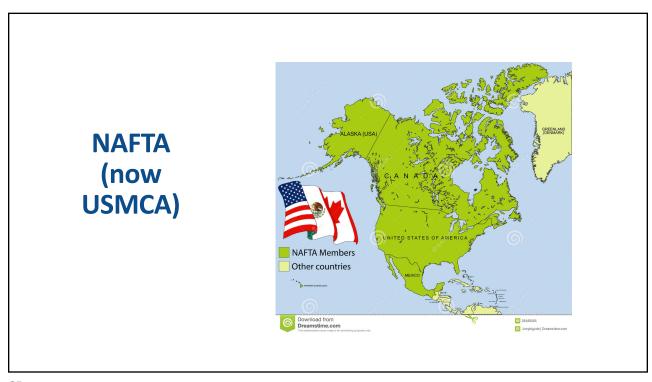

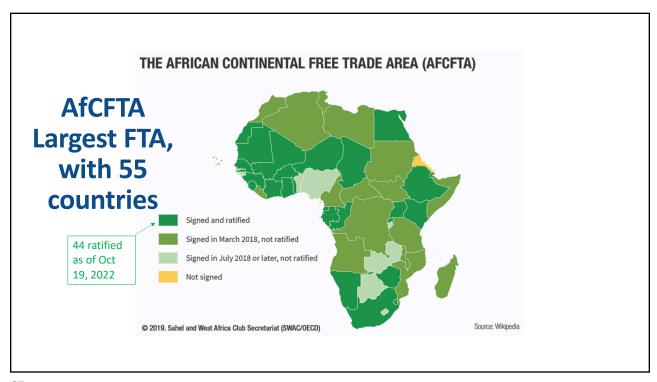

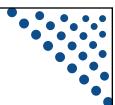

RCEP
=
Regional
Comprehensive
Economic
Partnership

69

#### Other Policies to **Encourage Globalization**

- IMF/World Bank
  - Policy advice to open markets (the "Washington Consensus")
  - Loans to countries conditional on
    - Reducing trade barriers
    - o Permitting capital flows

#### • GATT/WTO (World Trade Organization) [More on this later, if time]

- Negotiate reciprocal trade liberalization
- Settlement of trade disputes (usually about interfering with trade)
- Bilateral Investment Treaties
  - Better treatment of multinational corporations

# Policies that Discourage Globalization

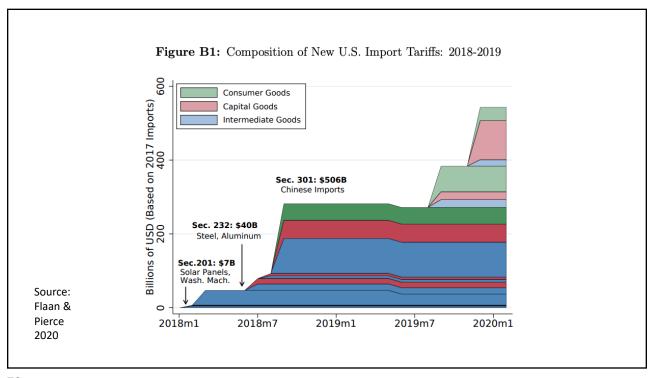

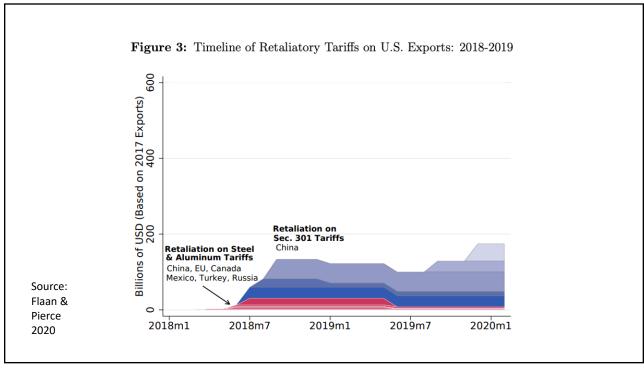

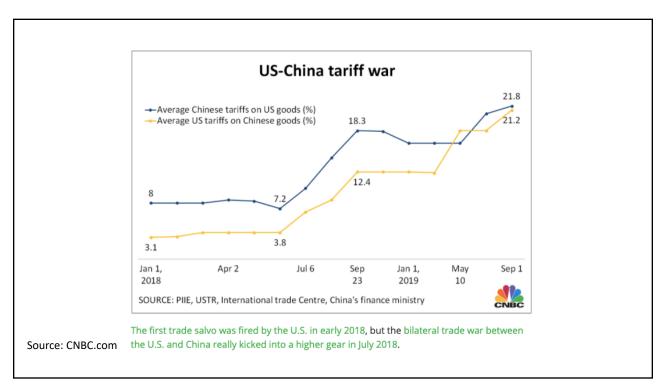

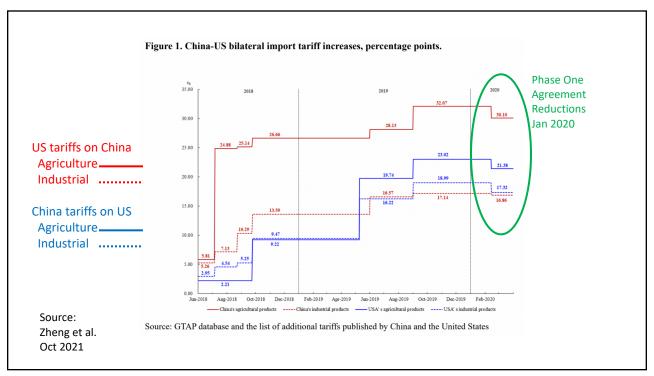

# **Effects of Tariffs**

77

# Effects of a tariff

- A tariff is a tax on imports. It causes
  - A rise in the price of the imported good in the importing country
  - A fall in the price of the imported good in the exporting country
  - The quantity imported to fall
  - The revenue of the tariff-levying government to rise
- Almost always: the <u>rise</u> at home is much larger than the <u>fall</u> abroad
  - That's especially true if importing country is small
  - But it's also true if importing country is as large as the U.S.
  - Example: Trump's tariffs caused US prices to rise, with hardly any perceptible fall in prices abroad.

78

## Effects of a tariff

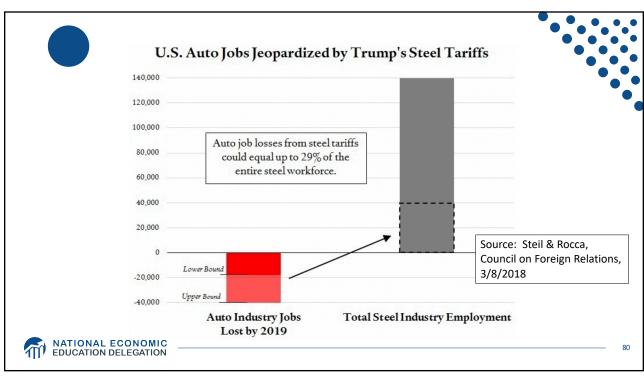

#### The rise in price in the importing country causes

- A rise in price of competing goods produced there
- Benefits to those producers
- Harm to buyers of both the import and the competing goods
  - o Including producers that use the higher-priced goods as inputs
    - Their prices also rise, hurting their buyers
- Employment changes:
  - o Increase in the protected industry
  - o Decrease in industries that use the protected product as inputs
- Example: Trump's 25% tariff on steel
  - o Helped US steel firms and their workers
  - o Hurt US auto firms and workers
    - · and many other industries that use steel

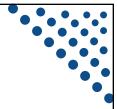

79

79

- "Nationally, steel and aluminum tariffs resulted in at least 75,000 job losses in metal-using industries by the end of last year [2019],
  - according to an analysis by Lydia Cox, a Ph.D. candidate in economics at Harvard University, and Kadee Russ, an economics professor at the University of California, Davis."

81

# Effects of a tariff

- If the tariff is on exports from only one country (e.g, China)
  - Buyers shift to imports from other, more costly, countries (e.g., Vietnam)
  - Sellers shift to export to other countries that pay less
  - Both lose a little

## **Arguments for and against tariffs**

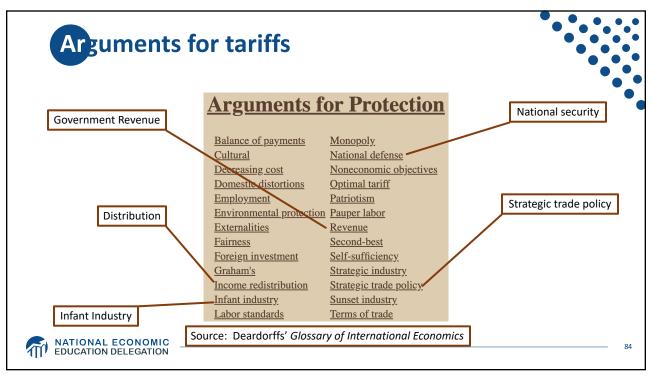

- If economists are so opposed to tariffs, why are they used?
- Arguments for protection
  - Many have been used, both past and present
  - Some are potentially valid, but better policies exist
  - See the list in my Glossary of International Economics

83

83

## Arguments against tariffs

#### Arguments against tariffs

- Economic gains from trade (see above)
- Tariffs prompt retaliation
- Some valid arguments for tariffs depend on information that is either
  - o Unavailable, or
  - Available only from the protected industry
- Even when net beneficial, tariffs are politically hard to remove
- Lower tariffs and greater trade reduce the likelihood of war

NATIONAL ECONOMIC EDUCATION DELEGATION

85

The Role of Trade Agreements

### Countries have negotiated trade agreements throughout history

- At least back to the 1500's between the Ottoman Empire and the powers of Europe
- The first "free trade agreement" (FTA) was between Britain and France in 1860, soon followed by many more
  - o Removed tariffs on trade with each other
- US used "reciprocal trade agreements" starting in 1934 to reduce tariffs and dig out of the Great Depression
- US led negotiation of multilateral agreements via
  - o GATT (General Agreement on Tariffs and Trade) 1948
  - o WTO (World Trade Organization) 1995

### Trade Agreements (both WTO & FTAs)

- Promote trade by
  - Reducing tariffs
  - Blocking policies that discriminate against imports
- But they also do much else, mostly to serve business interests:
  - o Permit anti-dumping duties to deter competition
  - o Protect intellectual property (patents, etc.)
  - Allow investor action against governments

87

# The Role of Trade Agreements

#### WTO

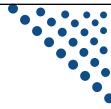

- 164 member countries
- Includes
  - China since 2001
  - ∘ Russia since 2012
  - ∘ Not Iran, N. Korea
- Headquarters Geneva, Switzerland

#### The WTO has

- Three Parts:
  - 1. GATT (Still exists, as largest part of WTO)
    - · limits tariffs
    - Permits exceptions (anti-dumping, etc.)
  - 2. GATS = General Agreement on Trade in Services
  - 3. TRIPs Agreement = Trade Related aspects of Intellectual **Property Rights**
- Two Basic Principles
  - Most Favored Nation (Don't discriminate among exporters)
  - 2. National Treatment (Don't discriminate against imports)

91

# The Role of Trade Agreements

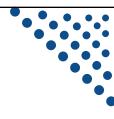

#### The WTO's Main Functions

- Negotiation of reduced trade barriers
  - o Tariffs (GATT did this well; WTO has not)
  - Removal of other barriers
- Dispute settlement
  - Countries bring cases against others
  - o WTO "panels" and "Appellate Body" decide

### WTO Negotiation

- Ministerial Meetings
  - o Held every ~2 years 1996-2017
  - o Most recent, #12, was delayed,
    - But happened June 12-17, 2022, in Geneva
    - · Didn't do much: Ended subsidies to illegal fishing
  - o Next, #13, will be in 2024, in United Arab Emirates

93

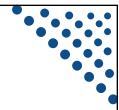

### WTO Negotiation

- Agreements
  - Multilateral (all members)
    - None on tariffs
    - A few on other measures (e.g., export subsidies in agriculture)
  - Plurilateral (willing members)
    - · Information technology
    - Telecoms
    - · Financial services

### WTO Dispute Settlement

- There have been 615 cases initiated since 1995 (as of 1/10/23)
- About 90% have been decided in favor of the complainant, both by US (132) and against US (168)
- The mechanism has been unable to decide cases since December 10, 2019 when
  - o President Trump blocked appointments to Appellate Body
  - o President Biden has not changed this

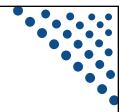

- Will trade, travel, etc. come back?
  - Yes, but only partly.
  - They've been hit hard by financial crisis, trade war, pandemic, and now war
- Will attitudes change?
  - Yes.
  - Firm's will try to limit exposure ("just in case" instead of "just in time")
  - Consumers may learn to live differently
  - Reported July 20: Biden administration wants "friend-shoring." No mention yet of policies.
- · Will economists' views of globalization change?
  - I think so.
    - We still think globalization is good overall,
    - o But we're learning that it needs to include
      - Reduced reliance on single sources
      - Greater protections for those who are hurt.

## Trade Deficits and Exchange Rates
