

Osher Lifelong Learning Institute, Spring 2022 Contemporary Economic Policy

University of South Dakota April-May, 2022

Host: Jon Haveman, Ph.D. National Economic Education Delegation

1

National Economic Education Delegation

Vision

- One day, the public discussion of policy issues will be grounded in an accurate perception of the underlying economic principles and data.

Mission

 NEED unites the skills and knowledge of a vast network of professional economists to promote understanding of the economics of policy issues in the United States.

NEED Presentations

- Are **nonpartisan** and intended to reflect the consensus of the economics profession.

2

2

Honorary Board: 54 members

- 2 Fed Chairs: Janet Yellen, Ben Bernanke
- 6 Chairs Council of Economic Advisers
 - o Furman (D), Rosen (R), Bernanke (R), Yellen (D), Tyson (D), Goolsbee (D)
- 3 Nobel Prize Winners
 - o Akerlof, Smith, Maskin

• Delegates: 651+ members

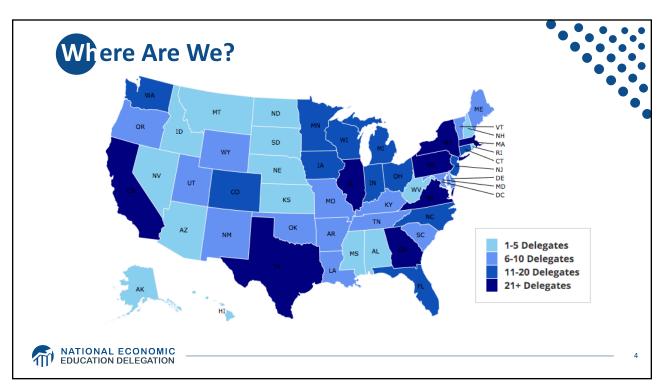

- At all levels of academia and some in government service
- All have a Ph.D. in economics
- Crowdsource slide decks
- Give presentations

• Global Partners: 49 Ph.D. Economists

- Aid in slide deck development

3

4

Available NEED Topics Include:

- Coronavirus Economics
- US Economy
- Climate Change
- Economic Inequality
- Economic Mobility
- Trade and Globalization
- Minimum Wages

- Immigration Economics
- Housing Policy
- Federal Budgets
- Federal Debt
- Black-White Wealth Gap
- Autonomous Vehicles
- US Social Policy

5

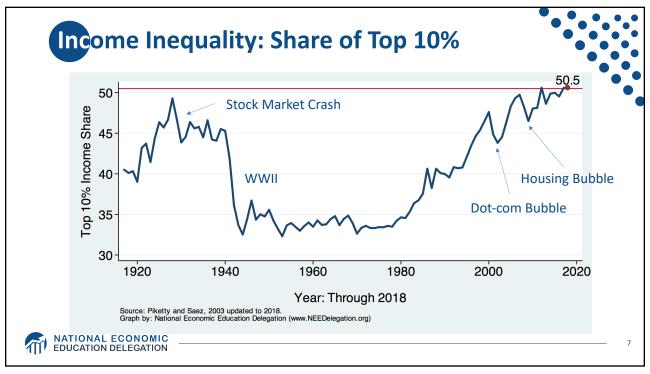

Course Outline

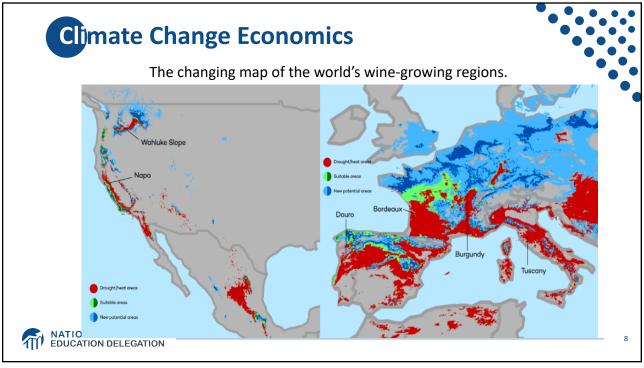

- Contemporary Economic Policy
 - Week 1 (4/19): Trade and Globalization (Alan Deardorff, University of Michigan)
 - Week 2 (4/26): Economic Inequality (Kyle Montanio, Univ. Colorado-Denver)
 - Week 3 (5/3): Climate Change (Sarah Jacobson, Williams College)

6

- Please submit questions of clarification in the chat.
 - I will try to handle them as they come up.
- We will do a verbal Q&A once the material has been presented.
- OLLI allowing, we can stay beyond the end of class to have further discussion.
- Slides will be available from the NEED website tomorrow (https://needelegation.org/delivered presentations.php)

Trade and Globalization

Alan Deardorff University of Michigan

Trade and Globalization

Alan V. Deardorff University of Michigan

Presentation to Osher Lifelong Learning Institute University of S. Dakota April 19, 2022

11

Impact of Russia-Ukraine War

How Russia-Ukraine war impacts globalization

- War itself disrupts trade, especially exports of
 - Ukraine: wheat Russia: wheat, oil
- Economic sanctions by governments disrupt
 - o Financial linkages
 - o Trade
- Private companies stop dealing with Russia

13

Impact of Russia-Ukraine War

• Financial sanctions by US, EU, UK, and others

- Frozen foreign-held assets of individuals, Putin and dozens of others
- Restrictions on Russia's Central Bank's use of international reserves
- Several Russian banks removed from the Swift international payments system
- Cut off many Russian banks from transactions and operations
- Long list of Russian companies banned or restricted
- Possible restrictions on Russia borrowing from IMF and World Bank

Impact of Russia-Ukraine War

- Trade sanctions by governments
 - Oil and other energy
 - o Germany puts Nord Stream 2 gas pipeline on hold
 - o US bans from Russia
 - UK to phase out Russian oil by end of 2022
 - $\circ\,$ EU to become independent from Russia by 2030
 - EU bans steel imports from Russia
 - US restricts exports to Russia, especially technology and military; later also to Belarus; later also luxury goods
 - EU and UK impose export restrictions similar to US
 - Ban on Russian air carriers by Canada, EU, US, UK
 - G-7 to revoke Russia's most favored nation status
 - o Permits them to raise tariffs on Russian goods

15

Impact of Russia-Ukraine War

- Private Companies Stop Dealing in Russia, per NBC News updated Mar 16:
 - Automotive: Ford, GM, Toyota, ...
 - Aviation: Airbus, Boeing, American, Delta, United, ...
 - Energy: BP, ExxonMobil, Shell
 - Equipment: Caterpillar, Honeywell, Deere
 - Food & Bev: Burger King, Coke, McDonalds, Starbucks,...
 - Finance: Citigroup, Deutsche Bank, Vanguard, ...
 - Consumer goods: Proctor & Gamble, Unilever, Mars, ...
 - Leisure: Airbnb, Hilton, Expedia, ...
 - Logistics: DHL, FedEx, Maersk, UPS
 - Media: Netflix, Roku, Disney, ...
 - Payment services: Amex, Visa, Western Union, ...
 - And many more: Consulting, Retail, Technology

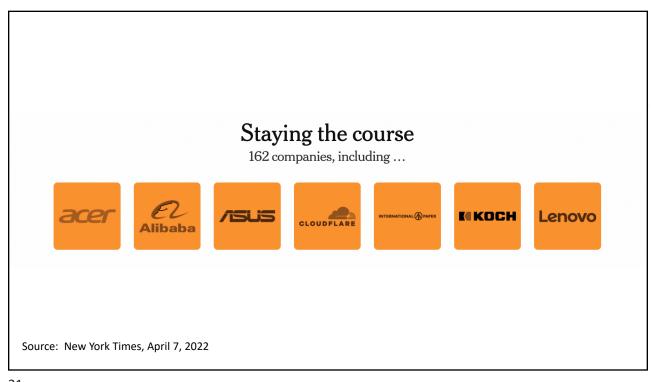

- What is Globalization?
- Pros and Cons of Trade
- Trade Policies
- The Role of Trade Agreements & WTO (if time)

What Globalizations Is

- Growth over time of many interactions between countries
 - Trade
 - Global Value Chains
 - Foreign Direct Investment
 - Financial Flows
 - International Travel
 - Migration
- I will focus here on trade

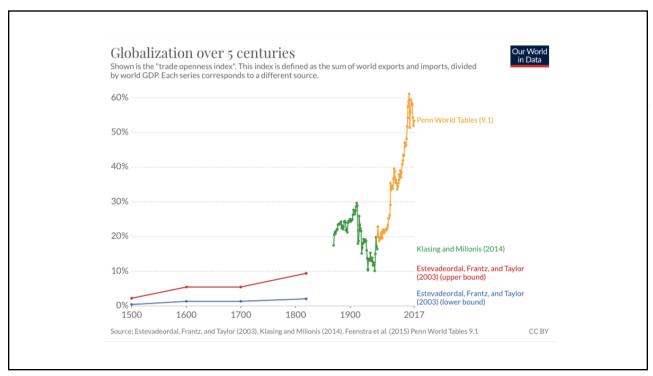

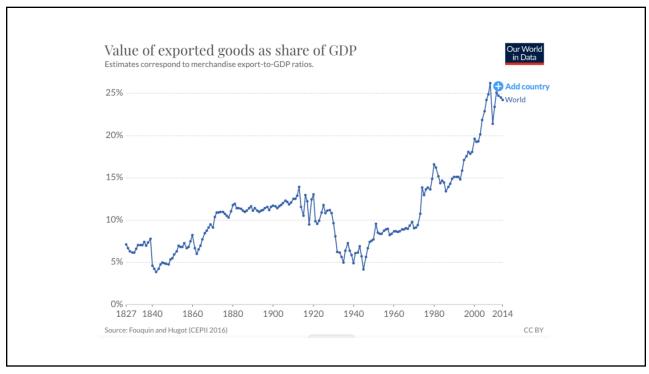

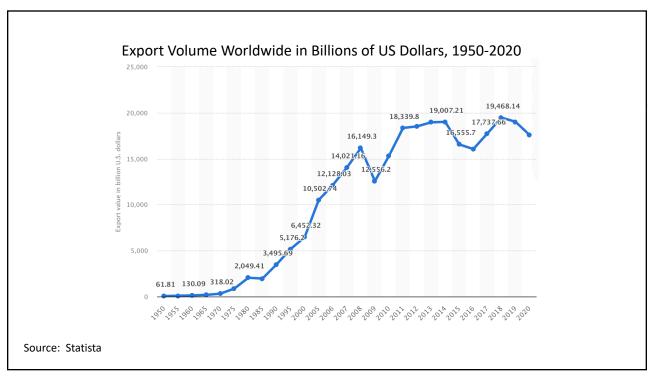

Trade

25

Global Value Chains

29

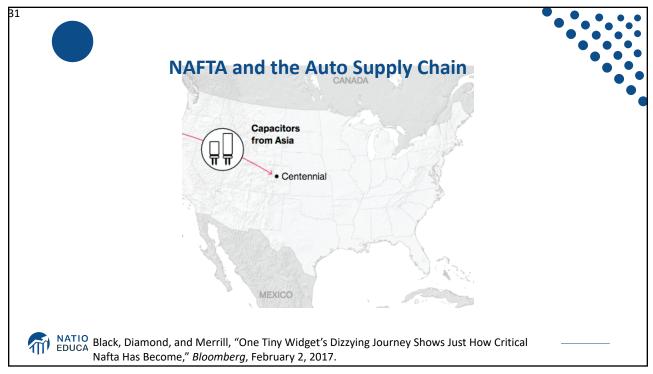

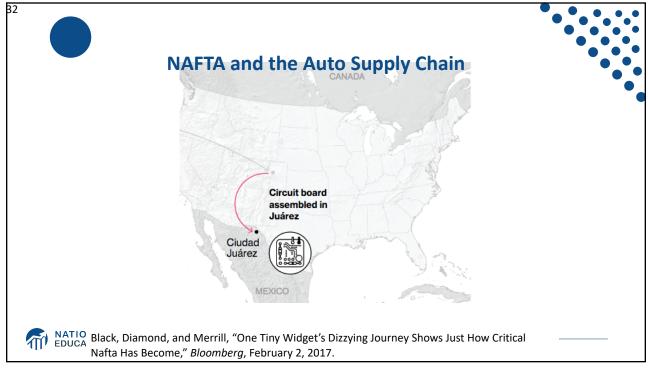

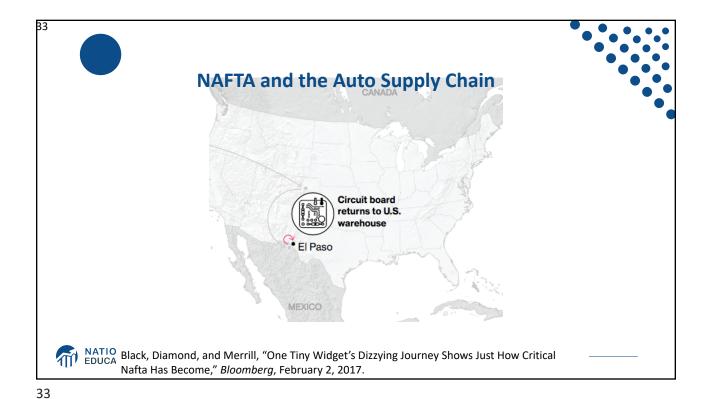

Supply Chains

- Globalization has created long and complex international supply chains

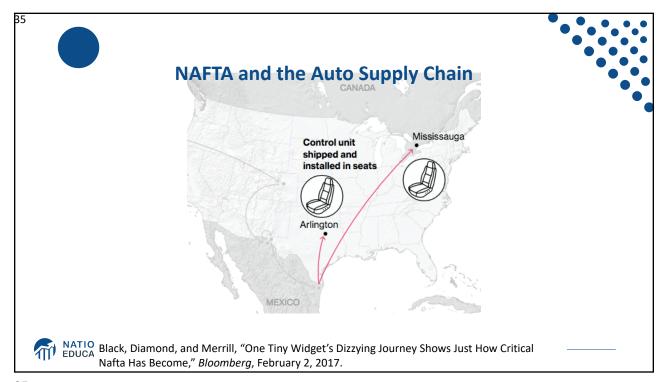

NAFTA and the Auto Supply Chain

Nafta Has Become," Bloomberg, February 2, 2017.

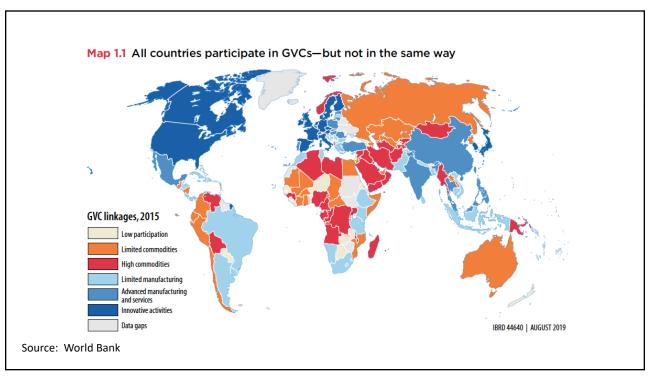

Pros and Cons of Globalization

Pros and Cons of Globalization

- Gains from Trade
 - o Theory of Comparative Advantage
 - Other Sources of Gain from Trade
- Costs of Trade

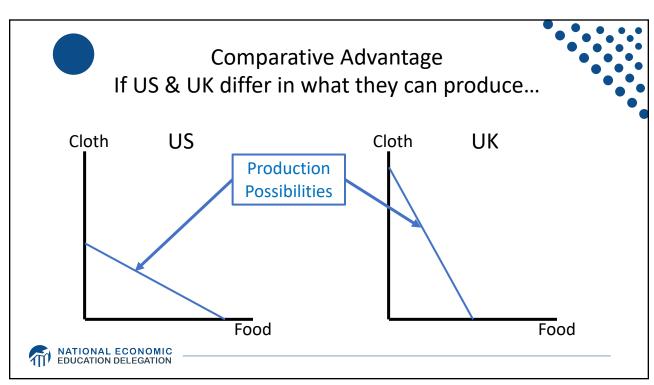

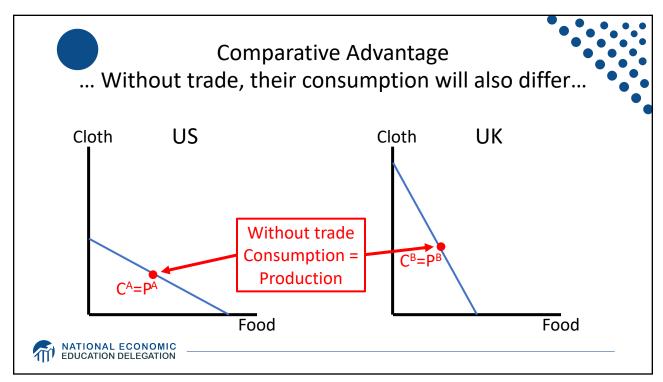

Comparative Advantage

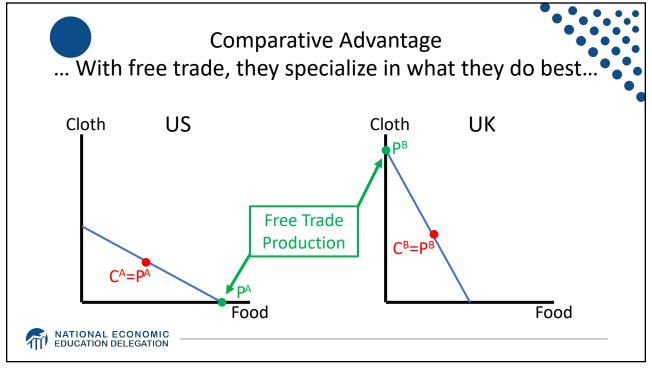

- The Theory of Comparative Advantage says:
 - Countries can gain,
 - o By producing
 - More than they need of what they do relatively best, and
 - · Less than they need of what they do relatively worst
 - o And exporting the extra to other countries in exchange for what they need
 - By doing that, ALL countries can
 - o Get more of everything, if that's what they want, and therefore
 - o Gain from trade
- Illustration with a graph of just 2 countries & 2 goods

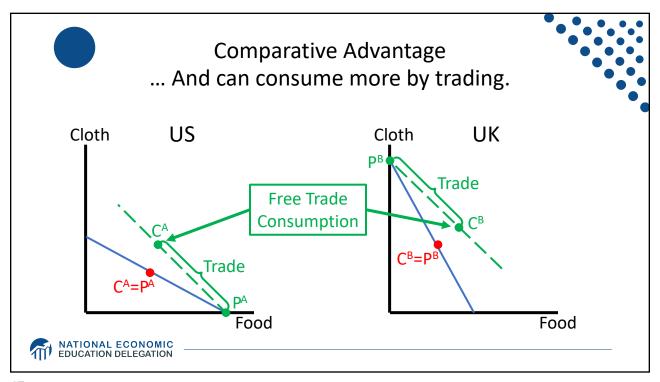

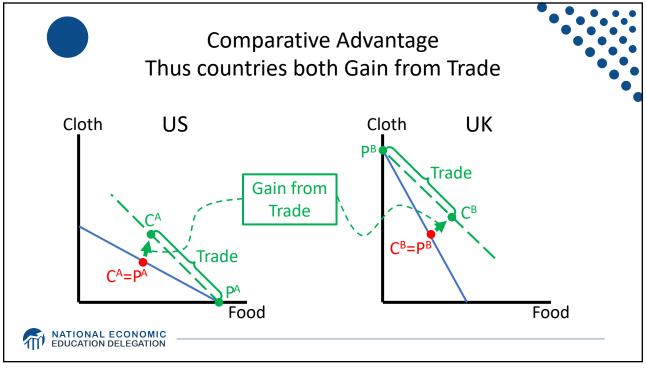

43

Generality of Comparative Advantage

The Theory of Comparative Advantage requires:

- "Perfect competition" (i.e., all buyers and sellers are very small)
- Absence of market "distortions" (externalities, etc.)
 - i.e., reasons why supplies and demands don't reflect true costs and benefits

• The Theory of Comparative Advantage does <u>not</u> require:

- Any limit on numbers of goods, factors, and countries
- That only final goods are traded (thus consistent with supply chains)
- That factors (labor, capital) be immobile between countries
 - (However, the gains from trade then accrue to countries including their mobile-factor owners.)

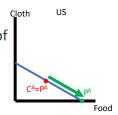

49

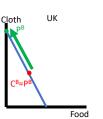

Generality of Comparative Advantage

But note:

- Nothing in the theory says that everyone in each country gains
- Opening to trade requires
 - o Some industries to shrink or disappear while others expand
 - o Firms and workers in shrinking industries
 - · Certainly lose during the transition
 - May be permanently worse off
 - o In example, losers are producers of
 - · Cloth in US
 - Food in UK

Gains from Trade Other Sources of Gain from Trade

51

Other sources of Gain from Trade

- Productivity (most productive firms expand and export)
- Returns to scale (small countries can support larger firms)
- Competition (monopolies in small countries lose market power)
- Variety (buyers, both consumers and firms, can access more choices)
- **Supply chains** (firms can source parts from cheapest or best sources)
 (That's really just the above, but within industries and firms.)
- Technology (producers get access foreign technologies)

Costs of Trade

53

But there are Costs

• Economic:

- When trade expands (or contracts)
 - o Some firms lose market share or shut down
 - $_{\odot}\,$ Other firms supplying inputs to those firms shrink or shut down
 - o Workers in both lose jobs
 - o And their **communities** lose customers
- Macroeconomic cost: Vulnerability to foreign recession/inflation
- Dependence on other countries' willingness to trade
- Vulnerability to trade disruption
 - o Crisis induced (earthquake, flood, disease, war)
 - o Policy induced (sanctions, tariffs, export bans)

Non-economic

- Loss of cultural differences
- Spread of invasive species and plant disease
- Spread of human disease

- Pause for
 - -Questions
 - -5-Minute Break
- Next: Trade Policies

55

Trade Policies that Affect Globalization

- Policies that Encourage It
 - Tariff Reductions
 - Trade Agreements
 - Other
- Policies that **Discourage It**
 - Trump's Tariffs
 - Trade War

Policies that Encourage Globalization

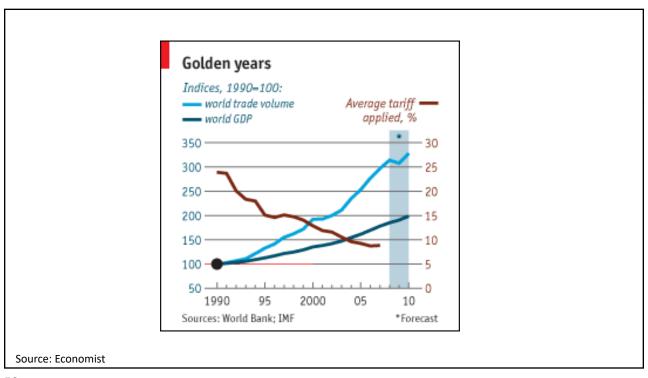

57

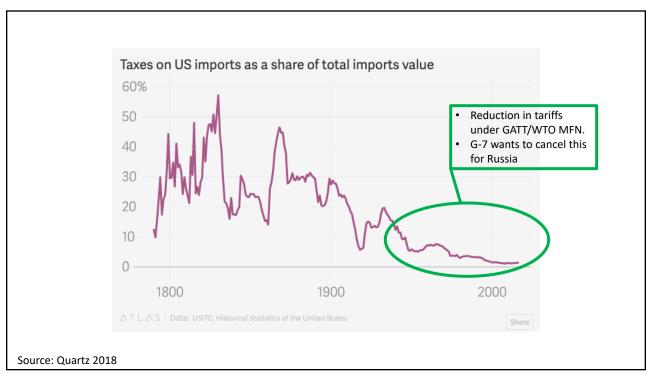

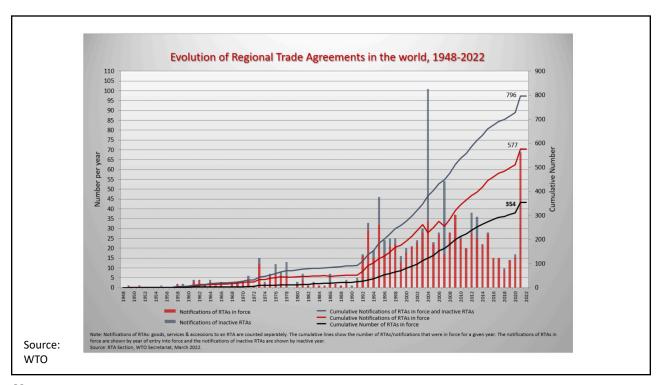

Trade Agreements

61

RCEP
=
Regional
Comprehensive
Economic
Partnership

67

Other Policies to **Encourage Globalization**

- IMF/World Bank
 - Policy advice to open markets (the "Washington Consensus")
 - Loans to countries conditional on
 - Reducing trade barriers
 - Permitting capital flows

• GATT/WTO (World Trade Organization) [More on this later, if time]

- Negotiate reciprocal trade liberalization
- Settlement of trade disputes (usually about interfering with trade)
- Bilateral Investment Treaties
 - Better treatment of multinational corporations

Policies that Discourage Globalization

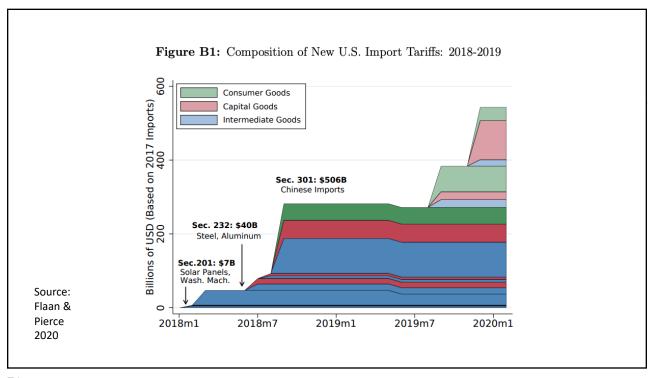

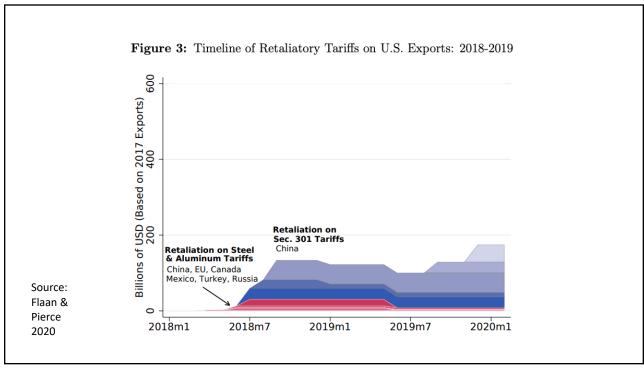

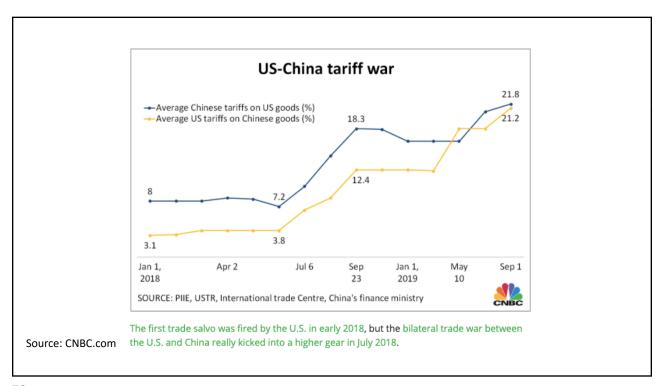

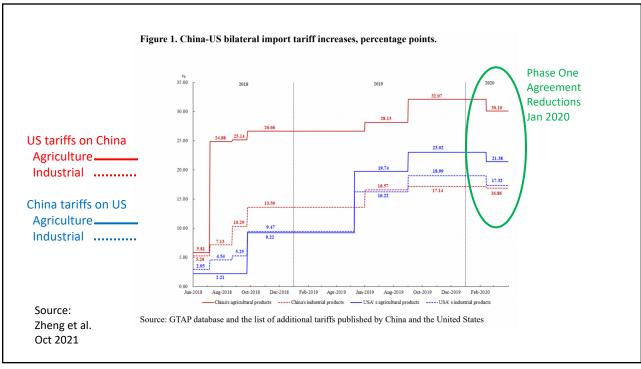

Effects of Tariffs

75

Effects of a tariff

- A tariff is a tax on imports. It causes
 - A rise in the price of the imported good in the importing country
 - A fall in the price of the imported good in the exporting country
 - The quantity imported to fall
 - The revenue of the tariff-levying government to rise

• Almost always: the <u>rise</u> at home is much larger than the <u>fall</u> abroad

- That's especially true if importing country is small
- But it's also true if importing country is as large as the U.S.
- Example: Trump's tariffs caused US prices to rise, with hardly any perceptible fall in prices abroad.

76

Effects of a tariff

The rise in price in the importing country causes

- A rise in price of competing goods produced there
- Benefits to those producers
- Harm to buyers of both the import and the competing goods
 - o Including producers that use the higher-priced goods as inputs
 - Their prices also rise, hurting their buyers
- Employment changes:
 - o Increase in the protected industry
 - o Decrease in industries that use the protected product as inputs
- Example: Trump's 25% tariff on steel
 - o Helped US steel firms and their workers
 - Hurt US auto firms and workers
 - · and many other industries that use steel

77

77

Effects of a tariff

• The fall in price in the exporting country causes

- Harm to sellers there
- Benefit to buyers there
- Shift of sales to other countries

If the tariff is on exports from only one country (e.g, China)

- Buyers shift to imports from other, more costly, countries (e.g., Vietnam)

78

Arguments for and against tariffs

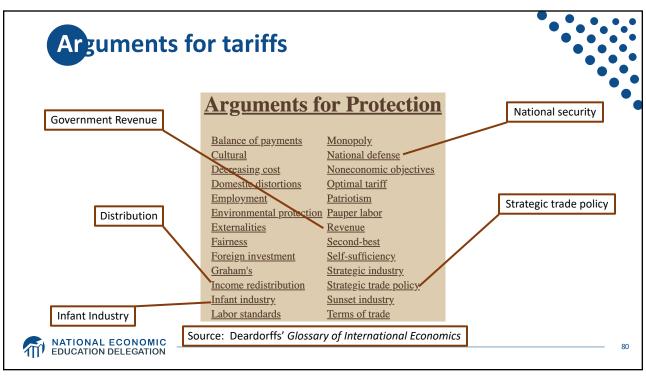

- If economists are so opposed to tariffs, why are they used?
- Arguments for protection
 - Many have been used, both past and present
 - See the list in my Glossary of International Economics

79

79

Arguments against tariffs

Arguments against tariffs

- Economic gains from trade (see above)
- Tariffs prompt retaliation
- Some valid arguments for tariffs depend on information that is either
 - o Unavailable, or
 - Available only from the protected industry
- Even when net beneficial, tariffs are politically hard to remove
- Lower tariffs and greater trade reduce the likelihood of war

NATIONAL ECONOMIC EDUCATION DELEGATION

81

The Role of Trade Agreements

- At least back to the 1500's between the Ottoman Empire and the powers of Europe
- The first "free trade agreement" (FTA) was between Britain and France in 1860, soon followed by many more
 - Removed tariffs on trade with each other
- US used "reciprocal trade agreements" starting in 1934 to reduce tariffs and dig out of the Great Depression
- US led negotiation of multilateral agreements via
 - o GATT (General Agreement on Tariffs and Trade) 1948
 - o WTO (World Trade Organization) 1995

The Role of Trade Agreements

Trade Agreements (both WTO & FTAs)

- Promote trade by
 - Reducing tariffs
 - Blocking policies that discriminate against imports
- But they also do much else, mostly to serve business interests:
 - o Permit anti-dumping duties to deter competition
 - o Protect intellectual property (patents, etc.)
 - Allow investor action against governments

83

The Role of Trade Agreements

WTO

- 164 member countries
- Includes
 - China since 2001
 - ∘ Russia since 2012
 - ∘ Not Iran, N. Korea
- Headquarters Geneva, Switzerland

The Role of Trade Agreements

The WTO has

- Three Parts:
 - 1. GATT (Still exists, as largest part of WTO)
 - limits tariffs
 - 2. GATS = General Agreement on Trade in Services
 - 3. TRIPs Agreement = Trade Related aspects of Intellectual **Property Rights**
- Two Basic Principles
 - 1. Most Favored Nation (Don't discriminate among exporters)
 - National Treatment (Don't discriminate against imports)

87

The Role of Trade Agreements

The WTO's Main Functions

- Negotiation of reduced trade barriers
 - o Tariffs (GATT did this well; WTO did not)
 - Removal of other barriers
- Dispute settlement
 - Countries bring cases against others
 - o WTO "panels" and "Appellate Body" decide

The Role of Trade Agreements

WTO Dispute Settlement

- There have been 612 cases initiated since 1995 (as of 4/15/22)
- About 90% have been decided in favor of the complainant, both by (132) and against US (168)
- The mechanism has been unable to decide cases since December 10, 2019 when
 - o President Trump blocked appointments to Appellate Body
 - o President Biden has not changed this

Globalization's Future?

- Will trade, travel, etc. come back?
 - Yes, but only partly.
 - They've been hit hard by financial crisis, trade war, pandemic, and now war
- Will attitudes change?
 - Yes.
 - Firm's will try to limit exposure
 - Consumers will learn to live differently
- Will economists' views of globalization change?
 - I think so.
 - We still think globalization is good overall,
 - But we're learning that it needs to include
 - Reduced reliance on single sources
 - Greater protections for those who are hurt.

91

Thank you! Any Questions?
