1. Net Flows

Figure 1 - 1: Relative Flows of Adjusted Gross Income, Tax Units, and Exemptions

- **Ratio of Inward Returns to Outward Returns:** A ratio greater than one indicates that more taxable units flowed into the region than out.
- **Ratio of Inward AGI to Outward AGI:** A ratio greater than one indicates that more adjusted gross income is flowing into the region than out. It indicates that the tax units moving into the region have higher incomes on average than those leaving the county.
- **Ratio of Inward Exemption Ratio to Outward:** A ratio greater than one indicates that the taxable units moving into the region have more taxable exemptions, generally children, than those moving out of the region.

2. Largest Migration Partners

Table 2.1. Top Ten Taxable Unit Migration Partners

2022 County	Number of Taxable Units			Flow Ratios		
	In From	Out to	Sum	AGI	Returns	Exemptions
Sacramento, CA	4,975	3,414	8,389	1.70	1.46	1.14
Nevada, CA	504	580	1,084	1.58	0.87	0.93
Santa Clara, CA	786	216	1,002	4.59	3.64	1.43
Alameda, CA	658	166	824	5.65	3.96	1.35
El Dorado, CA	414	402	816	0.85	1.03	0.93
Contra Costa, CA	566	179	745	2.83	3.16	1.11
Los Angeles, CA	352	256	608	1.20	1.38	1.32
